

APU-NET Guide	Ver	Supported OS
Respon Installation Manual	1.0	iOS / Android

■ Preface

This manual outlines how to install the online survey tool respon.

Respon is a dedicated application for real-time surveying and attendance confirmation via the manaba system that will go into operation on September 26th.

Things you Need Before Installation

To install respon, you will need to have your Apple ID (App Store) or Google Account (Google Play) on hand and a stable internet connection. You will also need an iPad, iPhone, Android tablet, smartphone, or other device.

Although you can take a survey or confirm attendance from a desktop computer, you will need to login to manaba from a web browser because there is no desktop application.

CONTENTS

1. iOS 2. Android

1. iOS

1) Pre-setting

Respon is only available in the Japanese App Store, so you will need a Japanese Apple ID to install it. You may also be able to install it by changing the region setting of your current Apple ID from a different country to “Japan”, but the developer cannot guarantee that the app will work properly in such cases.

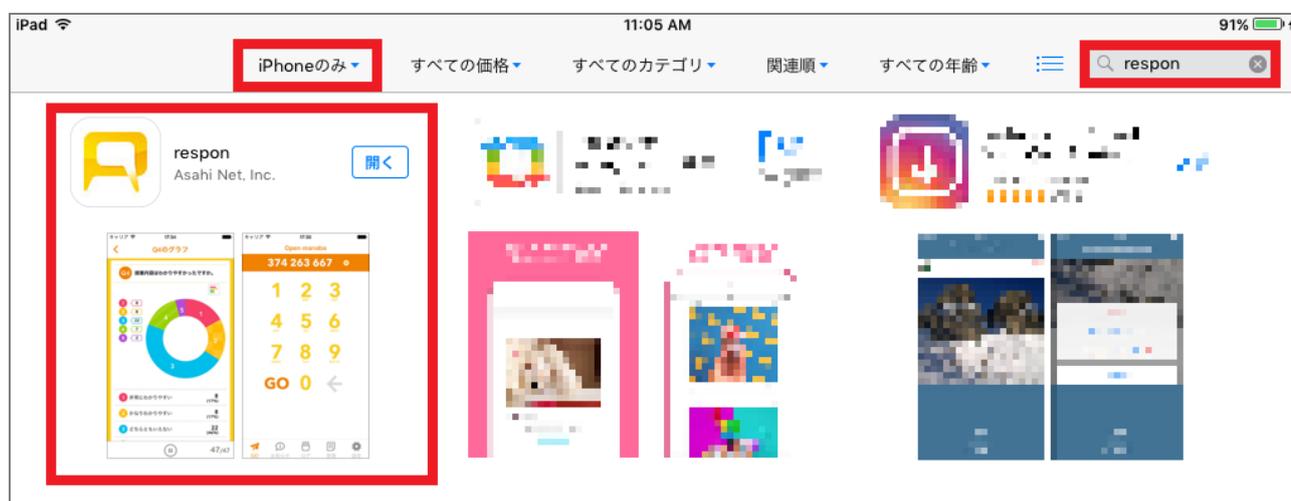

Please read the Apple support page for instructions on changing the region setting.
