7.2 College Transfer

"College Transfer within the University" is a system whereby an APU student, scheduled to proceed to the 2nd or 3rd year level, transfers from the College in which they are currently studying to another College within the University. As a general rule, transfer from a college is only available when there are openings in the other College. Details can be found on the Academic Office website.

Credits obtained in the college before the transfer will remain on a student's transcript after the college transfer. Credits will be transferred to Subject Fields that correspond to the new college.

Please note that transferred credits may be placed in Subject Fields different from those in the previous college. In this way you need to be very careful when undertaking course planning.

7.3 Graduate School Subjects Early Enrollment Program

The Graduate School Subjects Early Enrollment Program provides undergraduate students in their 7th or 8th semester the opportunity to take subjects of their choice in one of the graduate schools while retaining their undergraduate status.

If the student later enrolls in an APU graduate school, credits earned while studying in this program can be transferred upon application as long as they are deemed academically beneficial by the graduate school in question.

This program affords students thinking of advancing to graduate school the opportunity to prepare for their graduate studies in a conscious and well-planned manner. Moreover, taking graduate school subjects early will reduce students' workload after enrollment in graduate school and will allow them to focus on their research. Students who want to use their time wisely and prepare for the next stage of their studies before advancing to graduate school are encouraged to take full advantage of this program.

- When moving to the 7th semester: Apply during the 6th semester
- When moving to the 8th semester: Apply during the 7th semester

Credit Transfer upon Advancement to an APU Graduate School

Based on applications filed by program students, credits earned from subjects completed through this program will be approved as credits obtained prior to admission as long as they are deemed academically beneficial by the graduate school in question.

However, students who are planning to enroll in a graduate school other than APU should consult with that graduate school about whether credits earned through this program may be transferred.

7.4 Credit Transfer for Studies Conducted at Other Universities (First Semester Students Only)

APU understands the significance of learning through a wide range of channels. Therefore, the University will allow students to transfer credits obtained prior to enrollment under certain circumstances (except for 2nd and 3rd year transfer students). Credits will be transferred only if applicants fulfill the credit transfer conditions.

Here are the necessary conditions for a Credit Transfer:

Notes:

- The credits will be transferred as APU subjects. Therefore, the number of credits you are assigned for each course may not be the same as the number of credits you obtained for the same course at your previous university.
- "T" (transfer) will be shown for all transferred subjects in the evaluation section of the student's grade report. *A maximum of 60 credits are transferrable, including all forms of transferred credits at APU. Please also refer to p.85 for more information regarding the credit transfer system.
