

AY 2018 Fall Semester

Ritsumeikan Asia Pacific University
Graduate School Subjects
Early Enrollment Program
(Application Guidelines)

Ritsumeikan Asia Pacific University

This program allows undergraduate students to enroll in graduate school subjects early in an effort to enhance their motivation to advance to graduate school and to afford them an opportunity to prepare for their graduate studies in a conscious and well-planned manner.

If the student later enrolls in a APU graduate school, credits earned while studying in this program can be transferred upon application as long as they are deemed academically beneficial by the graduate school in question.

If you are thinking about going to graduate school and want to use your time wisely before you advance to the next stage in your studies, we advise you to take full advantage of this program.

Note:

Acceptance into the Graduate School Subjects Early Enrollment Program **is not enrollment in either of the graduate schools.** Students who want to advance to one of the graduate schools at APU **should apply separately and undergo the graduate school admissions process.**
