

4th-Year Seminars, Fall Semester 2020

4th year seminars form the culmination of students' four years of study at APU. This highly specialized subject allows students to select a topic of interest and conduct focused research over a 1-year period. The ultimate aim of 4th -year seminars is for students to complete an undergraduate thesis or the required research output.

Students take the subject 'Research Seminar' (*'Graduation Seminar I' for 2017 Curriculum APS Students) in the first half of their fourth year. Students who successfully pass this subject are then able to take 'Undergraduate Thesis' (*'Graduation Seminar II' for 2017 Curriculum APS Students) the following semester. Only students who complete 'Research Seminar'(/'Graduation Research I') are eligible to register for 'Undergraduate Thesis' (/ 'Graduation Research II').

*As shown above, students register for 4th year seminars in their 7th and 8th semesters, respectively; however, students may also choose to defer their seminar registration to their 8th and 9th semesters, should they decide to extend for an additional semester.
