

THREE-MONTH INTENSIVE TRAINING TO STRENGTHEN THE FUNDAMENTALS

FIX COURSES APPLICATION GUIDELINES

APPLICATION OVERVIEW

Students can choose from four courses, English, Math, Kokugo, or Japanese, through which you will use Kumon method educational materials for self-directed study, starting from the fundamentals and advancing to application. Based on the results of your placement test you will start from the academic level which best suits you, and you can study at your own pace.

KUMON

“I need to start all over from the basics” · “I’m job hunting and I want to be able to write my reasons for applying to a Japanese company” · “I want to prepare for the SPI test[※]” if this sounds like you, we especially recommend you apply!

In FIX courses, supporters are always available in the booth, so they can advise you as you continue your studies. (This is not a lecture course.)

※**SPI test**…This is a test used by many Japanese companies to test applicants’ math skill levels. Because there are so many questions it is important to be able to solve many math problems quickly and accurately within the time limit.
