

The KUMON logo consists of the word "KUMON" in a bold, blue, sans-serif font. The letter "O" is replaced by a stylized face with a single dot for a nose and a curved line for a smile.The APU logo features the letters "APU" in a stylized, red, serif font. The letters are interconnected, with the "A" and "P" sharing a vertical stroke.

K.P. Studied at FIX when s/he was a 3rd year student

Learning Japanese language at FIX has changed my life. The reason why I chose to study here was I did not want to forget Japanese language and at that time I had already finished Advanced Japanese class. My original purpose was to study for N2 (JLPT) test in July but I ended up starting at very easy level of Japanese practice at FIX. Because of that, I tried very hard to study every day and every time I had free time. The content of the material is very easy to understand for international students to study and it is very fun. By the time of studying period end, I had already done 1,000 pages and fortunately I had passed N2 level. I had to admit that Kumon at FIX had helped me a lot with reading speed and vocabulary parts. Moreover, I have become better at time management and become a person who always studies every day. If you are looking for place to learn Japanese by yourself but still need someone to check your Japanese ability or someone who can give you some advices, I definitely recommend you to study at FIX.

J.P. Studied at FIX when s/he a 3rd year student

Last Semester, I had a chance to study at FIX Course and I really enjoyed it! I decided to study here because I still wanted to review my Japanese even though I didn't take Japanese class. I learned many things from FIX Course such as new vocabulary, Kanji and so on. Moreover, studying here made me be more responsible to review Japanese, which helped me improve my grammar and reading skill. If you do not continue Japanese class but do not want to forget Japanese like me, I really recommend this for you!

I.F. Studied at FIX when s/he was a 4th year student

I studied with Kumon for one year (2 semesters). Learning with Kumon gave me many benefits. One of the benefits is I am able to read Japanese passages faster. Before I joined Kumon, it was hard for me to understand Japanese passages, even if I read them several times. Kumon gave me a lot of reading practice that helped me improve and gave me confidence in reading Japanese passages.

This skill is very important for job hunting in Japan, because in the screening test they will have a Japanese test. I felt the benefits of being able to read fast in Japanese when I did my job hunting. The screening test is usually about kanji and reading passages. Reading fast in Japanese will help me to get a good score on the screening test.

Kumon helped me to increase my Japanese ability a lot and set my goal for my future. Kumon's system of doing a set of homework each day challenged me to do my best and helped me to complete my goal. All of the benefits of joining Kumon support me in my dream to find a job and be a part of Japanese society as a foreigner.
