

# Highered Global Career Platform

A platform with various career development information and opportunities for those who are looking to build a global career, to work outside of Japan, or to gain experience in an international workplace

## How to Use

The Career Office is pleased to introduce our Highered Global Career Platform (Highered for short) of the European Foundation for Management Development (EFMD). Gain access to a wide range of internships, trainee positions and job opportunities available from companies around the world and updated daily. In addition to these global opportunities, you also have access to a self-assessment tool that gauges the level of key competencies you possess which are desired by most global companies. Please be reassured that these self-assessment results are available only to you. Webinar series on various topics are also at your disposal to help you develop your career in a competitive job market.
