

Notice of Power Outage in All APU Buildings

A power outage will occur over 2 days due to construction work for solar power installation in Green Commons (Building J). The installation of this equipment is part of continuing efforts to create an environmentally friendly building, reducing CO2 emissions and enabling electricity generation.

We would like to inform you that all buildings on the APU campus will be without power due to this construction work. During the power outage, all electrical equipment will be unavailable, so please refrain from entering the premises as much as possible.

We apologize for any inconvenience caused during the power outage, and appreciate your understanding and cooperation.
