

### 11 The Area and Capacity of Lecture Halls and Seminar Rooms in Each College and Graduate School

(Table 28)

College / Graduate School	Lecture Rooms / Seminar Rooms / Student Study Rooms	Number of Rooms	Total Area (m <sup>2</sup> ) (A)	Exclusive / Joint Use	Capacity (Total Number)	Total Number of Student Users (B)	Area per Student User (m <sup>2</sup> ) (A/B)	Remarks
University-wide	Lecture Rooms	22	6,137	Joint	5,662	5,963	1.03	Rooms with floor space of over 100m <sup>2</sup>
	Seminar Rooms	108	8,577	Joint	3,384	5,963	1.44	RMR/SPR/small classrooms/IPS/CAI/the Hut of Peace Spirit
	Self-Study Rooms	2	661	Joint	210	5,963		Self- Access Learning Center (SALC) /Multimedia Room
Graduate School -wide	Self-Study Rooms	6	353	Exclusive		190		GSA Master's Students Common Room /GSA Doctoral Students Common Room/GSM Master's Students Common Room/Cyber Study Room
University-wide	Gymnasium	1	2,951	Joint				
	Lecture room	1	2,691	Joint	740			Millennium Hall

Notes:

1. Enter data for each college and graduate school.
2. When the facilities are used by multiple colleges, graduate schools or junior colleges, enter the data separately from the data on exclusive use for the respective bodies and specify either Exclusive Use or Joint Use in the "Exclusive/Joint Use" column. Input data in the "Total number of student users" that includes students from said colleges, graduate schools or junior colleges who share these facilities.
3. If facilities are used jointly on each campus, enter the name of the campus concerned into the "College/Graduate School" column.
4. If facilities are used by the entire university, enter data into the "College/Graduate School" column and note that usage is "University-wide".
5. If there are exclusive-use facilities for liberal arts education, please indicate this according to the relevant colleges.
6. Please round off "Area per Student User" to two decimal places.
7. Regarding the calculation of "Area per student user" for the lecture halls, seminar rooms and other rooms that are shared with other colleges, graduate schools, etc., divide the overall area by the number of students of all of the colleges etc. that use the said facilities (if junior colleges also use the facilities, include the number of junior college students).
