

Ritsumeikan Trust School Health and Safety Management Regulations

(Health Checkups)

- Article 12. The President and Principal must hold a health checkup for students and others once every academic year within three months of new student enrollment.
2. The President and Principal can conduct a health checkup for students and others at any time as needed.
 3. Based on the results of the health checkups described in the preceding two paragraphs, the President and Principal must take appropriate measures such as taking actions to prevent illness, giving instructions to receive treatment, and reducing exercise and workload.
 4. The President must provide health checkups on specified items conducted by a doctor to students and others engaged in hazardous work operations specified by government ordinance for university research or other activities.
 5. The President and Principal can add items to health checkups for students and others in addition to those specified by law as required.
 6. In addition to the items specified in this article, health checkups for students at Ritsumeikan University must be carried out according to the Ritsumeikan University Student Health Checkup Regulations and health checkups for faculty and staff must be carried out according to the Ritsumeikan Trust Faculty and Staff Health and Safety Management Regulations.

(Suspension from Classes)

- Article 13. The President and Principal may suspend a student or other individual from classes based on government ordinance if there is a danger of spreading infection.
2. In the event of suspension from classes, the President and Principal must inform the Executive Trustee of General Affairs.

(University Closure)

- Article 14. The Executive Trustee of General Affairs may close all or part of the school if deemed necessary to prevent infection upon discussion with the respective President and Principal.

(Contacting Public Health Centers)

- Article 15. The President and Principal must contact the Public Health Center in the following cases:
- (1) To conduct the health checkups described in Article

12;

- (2) To enforce the suspension from classes described in Article 13;
- (3) To enforce a school closure as described in Article 14.

(Emergency Response Guidelines)

- Article 18. The President and Principal must create emergency response guidelines along the basic risk management outline according to Article 29 in the School Health Act and submit said guidelines to the Executive Trustee of General Affairs.
2. The President and Principal must inform all affiliated faculty and staff of the emergency response guidelines and conduct emergency response drills at least once a year.

(Emergency Response)

- Article 19. The President and Principal must provide students and others with the necessary support for recovering their mental and physical health should said student or other individual suffer emotional trauma and/or other mental and/or physical health impact in an accident or other event.
