

(For APS 2017 Curriculum Students)

AY 2027 Spring Application Guidelines for Undergraduate Seminar Subjects

1. What are Undergraduate Seminar Subjects (Seminars)?

- (1) Seminars are a series of small-class courses held over a two-year period under the same course instructor aimed at acquiring specialized knowledge and producing a graduation deliverable. Students take Major Seminar I and II in their 5th and 6th semesters, Graduation Research I in their 7th semester, and Graduation Research II in their 8th semester. Check the information below for details.
 - Course List (number of credits, prerequisites, notes/warnings for registration, etc.)
 - Syllabus (course objectives and teaching methods, grade evaluation methods, etc.) *All seminars have the same syllabus content.
 - Seminar List (available instructors, languages offered, etc.)
 - Seminar booklet (details of individual seminars)
- (2) As a rule, the university will register students for their seminar courses based on their seminar applications and the screening by seminar instructors.

2. Course Information

(1) Basic Concept

As shown in the chart below, students apply for a seminar one semester before they start their seminar, and they are assigned to their seminar after the screening process. It is recommended that students wishing to take a seminar should start their seminar in the 5th semester, but they can also start in the 6th semester or later if their instructor allows it. Once students have started a seminar, they will normally continue their studies with the same instructor. Course registration will be carried out by the university before the Lottery-based Registration period.

<Starting a seminar from the 5th semester>

4th semester	5th semester	6th semester	7th semester	8th semester
Application	Major Seminar I or II(*1)	Major Seminar I or II(*1)	Graduation Research I	Graduation Research II
Courses registered by the university				

<Starting a seminar from the 6th semester>

5th semester	6th semester	7th semester	8th semester
Application	Major Seminar I or II(*1)	Graduation Research I	Graduation Research II
Courses registered by the university			

<Starting a seminar from the 7th semester or later>

1 semester before seminar start	First semester of seminar	Second semester of seminar
Application	Graduation Research I	Graduation Research II
Courses registered by the university		

*1 The 3rd year seminar offered in the spring semester is called "Major Seminar I" and the 3rd year seminar offered in the fall semester is called "Major Seminar II. The I/II at the end of the course name does not mean the order of the courses.

*2 Graduation Research I is a prerequisite for Graduation Research II.

(2) Course Timetable

Seminars are semester courses, and 3rd-year and 4th-year seminars are offered separately. The class schedule for seminars varies depending on the instructor. Please check the course timetable to confirm the day and period of your seminar classes. In principle, the 3rd year seminars "Major Seminar I" and "Major Seminar II" are joint classes for 5th and 6th semester students, and the 4th year seminars "Graduation Research I" and "Graduation Research II" students are joint classes for 7th and 8th semester students.

(3) Changing Seminar Classes or Dropping classes

If you wish to change your seminar class, please follow the regular application process to apply for a new seminar. However, your original seminar will be cancelled at the time of your new application. (If you apply for a new main seminar only, only your current main seminar will be cancelled; if you apply for a new sub-seminar only, only your sub-seminar will be cancelled. If you submit a new application for both, both your main and sub seminars will be cancelled).

If you wish to drop a seminar, please do so yourself on Campusweb during Lottery-based Registration Period, Priority Registration Period A, Priority Registration Period B, or the Course Drop Period. If a student drops a course during the Lottery-based Registration Period, Priority Course Registration Period A, or Priority Course Registration Period B, they may re-register for the course on their own during Priority Course Registration Period A or B. However, if a course is dropped during Drop Period 1, the student will not be permitted to re-register for the course on their own.

Please be very careful when using the course registration system, as no special accommodations will be offered for seminar deletions even if they are an accident.

Please note that if you drop your seminar course yourself, or if your seminar enrollment is canceled due to a leave of absence, study abroad, disciplinary suspension, or any other reason, you must re-apply in order to resume taking seminar courses.

Additionally, since the 4th year seminar requires students to complete their graduation deliverable over the course of one year, students who are already enrolled in a seminar in their 7th semester are, in principle, not permitted to apply for a seminar change.

(4) Class Size

20 students each in 3rd and 4th year seminars.

(Students may not be accepted to a seminar during the screening process even if there are still seats available.)

3. Sub seminar (for 3rd year seminars only)

In the 3rd year seminar, students may register for two seminars if they wish. In such cases, one seminar will be treated as the main seminar and the other as a sub seminar, based on the student's application. Please note the following points when applying for a sub seminar.

- Sub seminars are only for 3rd year seminars, so students will not be registered for them in the 7th semester or beyond.
- If students apply for both a main seminar and a sub seminar and are accepted to only the sub seminar, the sub seminar will be treated as the main seminar.
- If students are enrolled in both a main seminar and a sub seminar and only the main seminar is dropped, the sub seminar will be treated as the main seminar.
- If the timetable of a main seminar and a sub seminar overlap, the sub seminar will not be registered.

4. Application

(1) Application Requirements

Japanese-basis students who wish to apply for a seminar offered in English must have earned credits for both Intermediate English A and B by the time of seminar enrollment. If a Japanese-basis student who has not completed Intermediate English A and B applies for a seminar offered in English, their seminar assignment will be cancelled regardless of the screening outcome.

(2) Application Procedures

- (1) Conduct an interview with the instructor whose seminar you want to take within the interview period. Please arrange the interview directly with the instructor by yourself via e-mail or other means.
- (2) After the interview, please submit your application via the online application form by the deadline.

[Application Notes]

- Please read the application guidelines, seminar booklet, etc. carefully before applying.
- Applications received after the deadline will not be accepted for any reason.

- The application for a second choice or sub seminar is optional. If you only wish to apply for your first choice, please leave the fields for your second choice and sub seminar blank.
- You must prepare and submit a statement of purpose for each seminar you wish to apply to.

(3) Screening

Seminar instructors will screen all the applications. The screening will be based on a comprehensive evaluation, including applicants' statements of purpose and GPAs. Please note that we cannot answer questions regarding the results of the screening process.

(4) Schedule

Content	Schedule
1) Interview Period	Thu, October 15 – Wed, November 4, 2026 16:30
2) Application Period	Thu, October 22 – Wed, November 4, 2026 16:30
3) Seminar placements announced	Late January 2027

*The above schedule is subject to change.

(5) Other Notes for Applications

1) Students participating in an exchange program (APU to a partner university)

- Permission to register for seminars during exchange program
 - 3rd year seminar: Not permitted.
 - 4th year seminar: Remote instruction is allowed if the instructor agrees to it.

* Students must submit a Remote Instruction Consent Form through the instructor prior to the beginning of the semester in which the remote instruction will take place. In addition, If the student is not enrolled in the instructor's seminar in the semester immediately preceding the semester of remote instruction is conducted, the seminar application process must also be submitted.
- Handling of students who have already enrolled in a seminar prior to the exchange program

If you participate in an exchange program, your seminar course will be cancelled. If you wish to resume the seminar when you return to APU after your exchange, you will need to submit a new application. However, it is possible to continue taking 4th year seminars by submitting a remote instruction consent form to the Undergraduate Seminar Team(seminar1@apu.ac.jp) through your instructor.
- Starting a seminar immediately after completing an exchange program

If you wish to take a seminar after returning to APU from an exchange program, you must apply for it one semester prior to the start of your seminar, using the regular application period and procedures. When applying from abroad, please note that the application period is in Japan Standard Time (JST) and ensure that you submit your application by the deadline.

2) Students Planning to Take a Leave of Absence or Suspended Students

If you take a leave of absence or if you are suspended, the seminar to which you belonged before will be cancelled. If you wish to take a seminar after returning from a leave of absence, you must apply for it one semester prior to the start of the seminar, via the regular application period and procedures. If you have already obtained a P grade for "Graduation Research I" before your leave of absence or suspension and your supervisor at that time continues to offer the seminar, you will be registered for the "Graduation Research II" by the university when you return from your leave of absence, without following the application process.

3) 5th semester transfer students from other colleges, students re-enrolling into their 3rd year or above, and exchange students (Partner Universities to APU)

Your application period will be set at a different time from that of regular students. Specific application periods will be posted on the Academic Information website.

4) Students registered for the Accelerated Graduation Program

For main seminars, your 4th year seminar will also be registered according to the table below. The course registration period will be the same as that of regular students.

4 th semester (Application)	5 th semester "Major Seminar I / II" and "Graduation Research I"	6 th semester "Major Seminar I / II" and "Graduation Research II"
---	--	---

5) Students who wish to continue taking a seminar in their 9th semester or later

In principle, the university will register seminar courses for students who are enrolled in their 9th semester or later. If you don't want to take a seminar course, please drop the course yourself.

5. Graduation Deliverables

This explanation of graduation deliverables is provided for your reference, but please follow your instructor's directions when actually creating and submitting your graduation deliverable.

Please note that the graduation deliverable must be prepared in the language in which the seminar is conducted. Please check the Seminar List for the language in which each seminar is conducted.

(1) Types of Graduation Deliverables

Please follow your instructor's instructions on the format and requirements for graduation deliverables. Please also refer to the ["APU Writing Manual"](#) for general considerations in writing the thesis.

(2) Submission Procedures

Graduation deliverables must be submitted online via Moodle. Submission deadlines will be posted on the "Seminar Subjects" page of the Academic Information Website.

6. Other Important Notes

(1) In the event that your Instructor goes on Academic Development Leave (ADL) or participates in a similar program

APU has programs for faculty members such as ADL in which eligible faculty members can devote a semester or longer to research activities outside of the university, including overseas, without teaching any classes. Please refer to the Seminar List for information on which instructors will be eligible for these programs. If your seminar instructor goes on one of these programs, the seminar will be handled as follows:

- 3rd year seminars (Major Seminar)

"Major Seminar" will not be offered during the semester while instructors are on ADL, etc., and seminar enrollment will be canceled.

- 4th year seminars (Advanced Seminar/Graduation Project/Undergraduate Thesis)

Seminars will be held via one of the following methods. The instructor and the university will decide which method will be used.

1. The instructor will hold the seminar remotely (online) from the research site.
2. Students will be supervised by another faculty member in place of the seminar instructor.

(2) Timetable Conflicts with Required College Subjects, Required Language Subjects, or Courses Requiring Prior Application

If a required college course or required language course conflicts with the seminar course, the seminar course will not be registered even if you have passed the screening process. As the university will not be able to make any special accommodations regarding seminar schedules, students are recommended to earn credits for required college courses and required language courses as early as possible. In addition, if a seminar course conflicts with a course applied for during the Application Period for Courses Requiring University Approval, the seminar course registration shall take priority.

7. Contact Information / Inquiries

Please be sure to read these application guidelines carefully before making inquiries. In principle, inquiries should be made by e-mail. Please note that it may take several days to receive a response.
