English Language

For Japanese-basis students, the appropriate curriculum and starting level of required English language subjects will be based on the results of the placement test taken at the time of enrollment. The curriculum types include the English Standard Track (24 credits) and the English Advanced Track (12 credits). Note that once curriculum types are set, no changes can be made.

Course Registration

- Required English language subjects are divided into A (4 credit) and B (2 credit) subjects, each graded according to its own evaluation criteria. Only once credits for both subjects have been completed can a student proceed to the next level.
- The university automatically assigns classes for required English language subjects in each track. Although there may be different timetables and teachers for courses at the same level, all classes are assigned by the university and cannot be changed or cancelled.
- The grade level restriction will not apply if a student meets the other requirements to enroll in a language education subject (English).

Requirement to Take the Benchmark Test for Required English Language Subjects

To evaluate the English learning level and progress, Japanese-basis students taking the required English language subjects in the Standard Track are required to undergo several Benchmark Tests at each registered level. The result of the Benchmark Test will make up a portion of student's grade evaluation for the individual level or course.

Benchmark Test

The Benchmark Test is a computer-based test of English language proficiency that is designed to show learner progress in the language over a period of time. It is an integrated-skills test, including Reading, Writing, Speaking, Listening. As well as giving detailed feedback to students on all of these language skills, the Benchmark Test provides students with a Global Scale of English (GSE) score.

Language Study Outside the Classroom

To further improve your language skills, APU offers a wide range of short-term programs during summer and winter holidays, as well as six-month and one-year overseas language training and study abroad programs. Students are also strongly encouraged to take the TOEFL ITP®, TOEIC® Listening and Reading Test and IELTS, which are conducted on campus, as an opportunity to objectively assess their English language skills. We look forward to your active participation and taking these tests!

6-1. What are Common Liberal Arts Subjects?

6. Common Education Subjects (Common Liberal Arts Subjects)

The subjects available at APU are divided into Common Education Subjects and Major Education Subjects. Common Education Subjects include Language Education Subjects and Common Liberal Arts Subjects, with Language Education Subjects further subdivided into 4 areas: English Language Subjects, Japanese Language Subjects, AP Language Subjects, and Special Lecture Subjects.

6-1. What are Common Liberal Arts Subjects?

All Common Liberal Arts Subjects are sorted into three subject fields. Subjects that fall under Common Liberal Arts include ones that aim to cultivate cultured and knowledgeable students as well as foundation subjects that serve as an introduction to each college's major subjects.

Please refer to your college's curriculum outline to check which subjects belong to each subject field.

- [APS 2023 Curriculum Outline](#) 
- [APM 2023 Curriculum Outline](#) 
- [ST 2023 Curriculum Outline](#) 

Common Liberal Arts Subjects

Field	Outline
APU Literacy	APU aims to be a global learning community where its diverse student body, composed of students with diverse cultural and social backgrounds from all over Japan and the world, can grow and develop while deepening their mutual understanding towards each other. By studying subjects in this field, students can acquire the methodologies needed to enrich their studies and make the most of APU's multicultural environment as they deepen their understanding of Japan and the Asia Pacific region, where the majority of students come from.
Introduction to Major Studies Group	The subjects in this field are foundation subjects that serve as an introduction to specialized study in each of the three colleges. Most of these subjects are required subjects for each college, and students should take them as early as possible to gain a foundation in their university studies.
Global Citizens Foundation	In order to become global changemakers, APU students must be knowledgeable and well-versed in the humanities, social sciences, and natural sciences. This field includes a variety of subjects that do not fall under the specialties of APU's three colleges. Furthermore, students also need to be able to logically formulate ideas based on data and communicate with the world using ICT. This subject field also includes subjects that serve as the foundation for acquiring these skills.

6-2. SSW & MCW

Student Success Workshop

Aim

This course aims to equip first-year students with academic skills and the skills and mindsets to study independently, autonomously, and cooperatively to be successful in various academic and social experiences at university.

Class Method

In the first half of the semester, students learn about learning together with others and coordinating studying on their own through readings and discussions. In the second half of the semester, students learn in a practical way how to find academic resources, how to write academically, and the difference between plagiarism and citing. Lastly, students listen to the stories of senior students and graduates invited as guest speakers, and set goals to increase their motivation to study. This class makes extensive use of group learning by dividing students into small groups, with undergraduate TAs acting as facilitators.

Multicultural Cooperative Workshop

Aim

Working cooperatively with people from different cultural backgrounds is everyday practice at APU and has become commonplace in today's globalized society. This course aims to equip first-year students with the basic skills and attitudes for intercultural communication and cooperative learning required in such settings.

Class Method

This class is based on a combination of lectures provided by faculty members and workshops facilitated by teaching assistants (TAs). In principle, the lectures will be held in large classrooms separated by Japanese and English language bases, and the workshops will be held in small classrooms mixing Japanese and English language bases. In these work shops, students will be further divided into small groups mixing Japanese and English language bases to focus on acquiring skills and attitudes related to intercultural learning and multicultural cooperation. In the second half of the course, students will work on a group project while applying such skills and attitudes, and present their group project during a final presentation event.

7-2. Seminar Subjects

Seminar courses are held in small groups. For this reason, students can choose their seminar course from the syllabus and deepen their learning on a topic of their interest. In 4th year seminars, students write a graduation thesis as a culmination of their four years of study. Seminars are not required courses.

In order to take a seminar course, students must: (1) Choose a seminar of their choice, (2) Interview with the instructor of the seminar, and (3) Follow the application procedures and pass the screening process. APU's application procedures and seminar course registration system are complex to allow flexibility in meeting the needs of students at various stages of their studies.

For this reason, it is very important to understand basic information about seminar registration.

17 2017 Curriculum

1. Students who enrolled as new (1st-semester) students between AY 2017 and AY 2022.
2. Students who enrolled as 2nd-year transfer students between AY 2018 and AY 2023.
3. Students who enrolled as 3rd-year transfer students between AY 2019 and AY 2024.

3rd Year Seminars

Any students interested in advancing to graduate study or finding employment in Japan are strongly encouraged to register for a small-group 3rd year seminar. Although the contents of each individual seminar vary greatly, the main aim of all 3rd year seminars is the same: deepen understanding of a specific field through case studies, journal articles and debate, and master the specialized knowledge and skills necessary for writing an undergraduate thesis.

【Grade Evaluation】

Major Seminar I/II: Regular grading (A+, A, B, C, or F)

APM "Major Seminar I & II"

APM In the APM Major Seminar, students study actual cases to learn about corporate behavior and the business environment.

Discussions are held during classes on topics such as accounting and finance, marketing, strategic management and organization, and innovation and economics. To build up their basic knowledge, students will first research a topic designated by the instructor, and then discuss that topic in class. Students later select their own individual topic to research.

4th Year Seminars

4th year seminars form the culmination of students' four years of study at APU. This highly specialized subject allows students to select a topic of interest and conduct focused research over a one-year period.

Students take Research Seminar (2 credits) in the first half of their 4th year. Students who successfully pass this subject are then able to take Undergraduate Thesis (4 credits) the following semester. Only students who pass Research Seminar are able to register for Undergraduate Thesis.

【Grade Evaluation】

Research Seminar:Pass (P) / Fail (F)

Undergraduate Thesis:Regular grading (A+, A, B, C, or F)
