

APU-Net Guide	Ver	Applicable OS
Eduroam User Manual (For Visitors)	1.0	Windows10/11、 macOS、 iOS/iPadOS、 Android

■ Introduction

Eduroam is a service that allows mutual use of wireless LAN (Wi-Fi) networks among universities and other educational and research institutions, and APU is a member of eduroam.

To use eduroam, your organization and the organization you are visiting must both be eduroam members.

< List of eduroam member institutions >

[eduroam domestic institutions \(eduroam official website\)](#)

[eduroam overseas institutions \(eduroam official website\)](#)

● How to use eduroam at APU for students, faculty and staff belonging to other eduroam member institutions

Please set up your eduroam account at your home institution before using the service at APU.

1. Connect to the SSID (network name) "eduroam" from the wireless LAN network list.
2. When the login screen appears, please log in using the following user ID and password.

User ID: Your institution's user ID @ your institution's domain name

Password: Password used at your institution

- ※ For security reasons, the available services are restricted.
- ※ Visitors cannot access services only available on the APU campus LAN and campus network.

Wireless LAN connection is available in the following facilities:

Classrooms	All general classrooms (Except for IPS, CAI classrooms)
Faculty Offices	All faculty offices (Building B, B II , F, H)
Building A	Conference rooms
Building B	GSA Doctoral Student Common Room 1, 2 GSA Masters Students Common Room 1, 2 GSM Masters Student Common Room
Building D	Library, Multimedia Room
Building E	Cafeteria, Student Council Room, Lounge
Building E II	Presentation Space, Multi-purpose Hall
Building F	Atrium, SALC
Building I	Jumonjibaru Lounge
