## 3. Curriculum

A "curriculum" is a set of requirements for graduation and courses which may be taken. A student's curriculum is determined by the year of their enrollment, and with the exception of a change in enrollment status, it will not normally change during a student's time at APU.

Curriculum Applied	Year Enrolled	Note
AY 2017 Curriculum	2017 Spring or later	-
AY 2011 Curriculum	2011 Spring - 2016 Fall	Curriculum remains the same regardless of readmission or reinstatement

## 4. Course Registration

### 4.1 Notes on Course Registration

- Course Registration involves not only carrying out the procedures for registering classes, but also making the decision regarding which classes you wish to take. It is the most important part of your academic planning, and it is necessary in taking classes, receiving credit and graduating. To help facilitate the planning of all students, always take utmost care when registering. Please do not register for courses you do not plan to attend, as this may prevent other students from registering.
- The syllabus can be viewed on the Campus Terminal. Please review the syllabus before registering.
- When you register or cancel subjects online, please be sure to click the Apply button to register your changes. Upon completion, please make sure to save or print the Course Registration Confirmation Sheet which includes your "Registration No." Without this number on the Course Registration Confirmation Sheet, we cannot respond to inquiries about system errors. Be sure to record the date the Course Registration Confirmation Sheet was printed/saved.
- Students expecting to graduation in March, 2022 who are uncertain about meeting the required credit criteria should plan to register and complete extra credits.

### 4.2 Grade Level

Each course corresponds to a particular level of study, indicated by a grade level code (refer to the pp.118-126 Undergraduate Academic Handbook). The levels are as follows. Please note that in most cases, with the exception of seminars and some other designated subjects, subjects can be resgisterd by students in the corresponding year or those in a higher year.

Grade Level	100 level	200 level	300 level	400 level
Description	Primarily for 1 <sup>st</sup> year students	Primarily for 2 <sup>nd</sup> year students	Primarily for 3 <sup>rd</sup> year students	Primarily for 4 <sup>th</sup> year students

You must first complete your course registration, log out, and then log in again to confirm your course registration is correct.  
Mistakes in registration are your own responsibility.

- Using another person's APU Net ID and password to access Campus Terminal, Campusmate, or other services is an extremely serious criminal act.  
Never use another person's account ID and password.
- There are many reported cases resulting in serious problems because of students swapping subjects during the course registration period.  
You must not give away or trade subjects with other students. The University does not take responsibility for any problems caused by such behavior.  
Furthermore, students who trade subjects for money or other compensation will be subject to disciplinary action.
- When you register or cancel subjects online, please be sure to click the Apply button to register your changes.  
Upon completion, please make sure to save or print the Course Registration Confirmation Sheet which includes your "Registration No."

## 5. Notes for Specific Colleges

### 5.1 To All Students

Once students have completed a specified number of credits from among the designated subjects for their Area of Study, the name of that Area of Study will be noted on their diploma. Please note that students cannot have the name of Area of Study noted on their diploma even though they completed the requirement for Area of Study, if they don't apply for the Area of Study. Students can choose any one of the four Areas of Study.

For more details regarding the application procedure for an Area of Study, please refer to the Academic Office website.

### 5.2 To APS Students

APS Students who complete 20 credits of subjects in a specific Area of Study which they applied for via Campusmate will receive that area title on their diploma.

### 5.3 To APM Students

APM Students who complete 30 credits of core subjects, seminar courses and subjects in a specific Area of Study which they applied for via Campusmate will receive that area title on their diploma. \*For details regarding APM Areas of Study, please refer to "Area of Study (AY 2011 Curriculum)" page located under the "Classes" menu on the Academic Office website.

## 6. Use Caution when Registering for the Following Courses

Please note that some subjects will not be available for you depending on your curriculum, semester of enrollment, etc. Please make sure that you refer to the Undergraduate Academic Handbook (pp.130-134) and course syllabus for details.

### 6.1 English Subjects

- Required English language subjects are divided into A (4 credit) and B (2 credit) subjects, each graded according to its own evaluation criteria. Only once credits for both subjects have been completed can a student proceed to the next level.
- Until all required English language subjects for the language track are completed, the University will continue to automatically register and assign students to classes. When retaking the same course, a student will not necessarily be registered for the same instructor or class, and this registration may not be changed or cancelled.
- Please refer to the Undergraduate Academic Handbook (pp.105-108) for more details on registration for English Subjects.

### 6.2 Japanese Subjects

- The University will continue to automatically assign classes until students have acquired the credits for the mandatory required Japanese language subjects. The timetable and lecturer may differ from class to class, even if offered at the same level. All subjects will be assigned by the University and students will not be able to change or drop classes.
- Japanese Language for Specific Purposes is for students who have completed their language graduation requirements but nevertheless wish to further improve their language skills. Please refer to the syllabus and Undergraduate Academic Handbook (p.109) for more details on course objectives and prerequisite subjects.

### 6.3 Asia Pacific Languages (AP Languages)

Registration can be carried out during the regular registration period. Applicants must meet the following criteria:

- The language subject that they are registering for is not their native language. Students who register for a course in their native language will later have their registration deleted.

- Japanese-basis students must have completed or be exempted from 'Elementary English A and B' and English-basis students must have completed or be exempted from 'Japanese Foundation Course I, II, and III'.
