2000-2020

Setting up the Equipment

Devices ([A]+[B]+[C]+[D]) <small>Some main devices may have build-in [B] and [C]. However, using a separate [B] will be more effective.</small>		Taking class from Home, etc. ↓	Taking class from APU's IPS rooms <small>(Only if do not have own connection/devices)</small> ↓
[A] Main Device PC or Tablet (Smartphone, tablet etc.) <small>*Internet connection required.</small> 		Must Provide Yourself ⚠	Provided ○ <small>(Desktop PC)</small>
[B] Sub device 1 Headset or Earphones <small>with Microphone</small> 		Must Provide Yourself ⚠	Provided ○ <small>(Headset etc.)</small>
[C] Sub device 2 Webcam <small>*If not built-in to your main device</small> 		Must Provide Yourself ⚠	None ✕
[D] Sub device 3 Stable internet connection <small>*Router, pocket Wi-Fi etc.</small>		Must Provide Yourself ⚠	Provided ○ <small>(If using own device to connect to APU's Wi-Fi)</small>

Setting up the Equipment (Example)

※Examples of a possible setup

[A] PC

[B] Earphones
(with Microphone)

[C] Webcam
(This PC has a build-in camera)

[D] Internet connection
(Wi-Fi router etc.)

How to Use Zoom (PC/ Mobile Device)

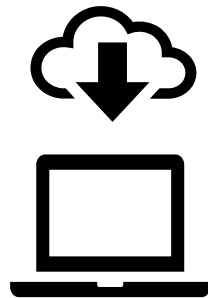

Recommended

PC

Download the PC
Application and Login

zoom

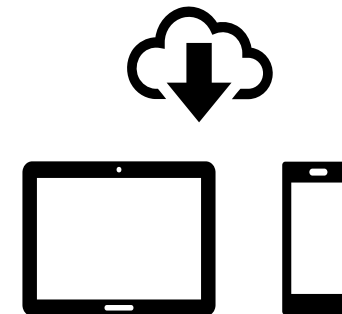

<https://zoom.us/download>
(Zoom Official Site)

OR

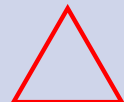

Mobile Devices

Download the Mobile
App and Login

※Please check the [Zoom Application] PDF for detailed steps

Differences between the PC and Mobile Apps

	<div>Recommended</div> <div>PC Application</div> <div></div>	Mobile App	<div> </div>
Video			
Data Load			
Functions		<div> Some functions limited Ex: Cannot send/receive files through chat, breakout room may not work, etc.</div>	

※It is possible to join Zoom meetings without installing the application by clicking join links, but functions are limited and the connection may be unstable, so APU has disabled this function.
