# Declaration on the Occasion of the Opening of APU

Since the beginning of human history, human beings have attempted to create their own distinctive cultures and develop civilizations in the various regions of the world. They have also had to overcome many constraints and obstacles in order to achieve their goal of living in conditions of freedom, peace and humanity.

The twentieth century was an era of rapid progress and unprecedented advance in the political, economical and cultural fields, as human activity increasingly took place on a global scale. Through the experience of the two World Wars, the United Nations and other international organizations were formed to enhance cooperation in order to maintain peace and to promote international understanding.

Given that the 21st century will see the emergence of a global society, we firmly believe that coexistence between mankind and nature, as well as between diverse cultures, will be indispensable for the peaceful and sustainable development of the Asia Pacific region. This is why we are now establishing a university here, to nurture the young talent and to create a new academic discipline which will help shape the region's future.

April 1, 2000 therefore marked the birth of the Ritsumeikan Asia Pacific University, based on a vision of freedom, peace and humanity, mutual international understanding, and the future shape of the Asia Pacific region. The establishment of the University at Jumonjibaru, in Beppu City, has been made possible through the cooperation of the people of Beppu and Oita Prefecture, together with many others both within and outside Japan.

Our hope is that it will be a place where the young future leaders from countries and regions throughout the world will come to study together, live together, and understand each other's cultures and ways of life, in pursuit of goals that are common to all mankind.

The Ritsumeikan Asia Pacific University is hereby declared open.

April 1, 2000

## THE RITSUMEIKAN CHARTER

Ritsumeikan traces its roots to Prince Saionji's private academy of the same name, established in 1869. It was officially founded in 1900 by his protégé, Kojuro Nakagawa, as the Kyoto Hosei Gakko (Kyoto School of Law and Politics), later to take on the name "Ritsumeikan". The name is derived from a passage in the Jinxin chapter of the Discourses of Mencius, and means "a place to establish one's destiny through cultivating one's mind."

Ritsumeikan's founding ideals are "freedom and innovation" and reflecting upon its wartime experience, it committed itself to a core educational philosophy of "peace and democracy" after World War II.

Ritsumeikan has faced the challenges of the times by pursuing an independent path to rise above adversity and has become the comprehensive private educational institution that it is today through extensive cooperation and support from both within and outside Japan.

Ritsumeikan, as a Japanese institution located in the Asia Pacific region, is committed to sincerely reflecting upon history and to building an institution where many cultures coexist in the spirit of international mutual understanding.

Ritsumeikan will build relationships of trust, through research and education, as well as sports and cultural activities, and establish its roots in the local community, to create an academic institution open to international society.

Ritsumeikan will strive to strengthen links with society and promote its institutional development by fully utilizing the characteristics of a private academic institution, the participation of its faculty, staff and students, and the support of alumni and parents, while respecting the principles of autonomy, democracy, transparency, non-violence and justice.

Ritsumeikan will pursue the creation of universal values based on academic freedom and search for solutions to the pressing issues facing humankind, with its educational endeavors based on its founding spirit and educational ideals, bearing in mind "to believe in the future, to live for the future".

Ritsumeikan will foster learning and the development of individual talents in order to nurture just and ethical global citizens.

Ritsumeikan, as an institute of education and research, pledges to promote peace, democracy and sustainable development in Japan and throughout the world, in keeping with the spirit of this Charter.

# Ritsumeikan Asia Pacific University Research Code of Ethics

The humanities, the social sciences and natural sciences have developed hand in hand with progress towards a more advanced, sophisticated and diverse society.

The continued pursuit of truth in traditional academic disciplines is accompanied by relentless processes of integration between different disciplines and generation of new fields of academic endeavor. Ritsumeikan Asia Pacific University (APU) is aware of the turbulent environment surrounding scientific inquiry today and the need to go beyond strict adherence to existing conventions and structures of academic research at universities. With this awareness, APU declares its commitment to the ideals intrinsic to academic research: pursuit of truth, conception and transmission of cultural traditions, and contribution to the welfare of humanity and advancement of human society. APU will promote research, following the spirit of the “Ritsumeikan Charter”, the ideals and mission of which are shared by the Ritsumeikan Trust personnel and which is widely conveyed to society.

At universities, research should be conducted freely on the basis of academic conscience. In order to guarantee this freedom and enable APU and its researchers to fulfill their responsibilities to society in conditions of autonomy, it is critically important to develop a shared ethical paradigm. ## 1-1. Outline of the Master's Degree Programs

### Degree Programs

Degrees offered in the Graduate School of Asia Pacific Studies Master's Programs are as follows:

Degree Type	Major	Degree Awarded on Completion
MS	Asia Pacific Studies (APS)	Master of Science in Asia Pacific Studies
MS	International Cooperation Policy (ICP)	Master of Science in International Cooperation Policy

### Graduate School of Asia Pacific Studies, Master's Programs - Structure and Outline

#### Master's Program in Asia Pacific Studies

##### 1) Policy for Curriculum Structure

In light of the educational objectives stipulated in the Graduate School Regulations, the Master's Program in Asia Pacific Studies is composed of two Divisions, International Relations and Society and Culture, each with its own curriculum. Each Division will offer its own Major Subjects, and Analytical Foundation Subjects and Core Subjects on the Asia Pacific Region will be offered jointly with the International Cooperation Policy Major to provide students with basic research skills and knowledge on the Asia Pacific. Meanwhile, students will receive individual research supervision in the Seminars.

##### a) International Relations (IR)

The International Relations (IR) division is aimed at expanding the students' empirical knowledge base and sharpening their analytical and theoretical thinking about social, economic, political, and security phenomena in the globalizing world. The courses in this division provide a useful knowledge base for both academic-bound students and practitioner-bound students with an intended career in security, diplomacy, and media. The major courses in this division include international security, international political economy, international law, and conflict resolution and allow students to choose their subfield(s) to focus on toward their paper writing.

##### b) Society and Culture (SC)

The Asia Pacific is one of the most rapidly developing regions in recent decades. To capture the patterns of social and cultural changes that have occurred, the Society and Culture (SC) division is devoted to promote comparative academic research on the region. The students can acquire practical skills in formulating and conducting research using theories and methods developed in sociology, cultural anthropology, or communication and media studies. With knowledge concerning social and cultural backgrounds of the countries in the regions, it enables students to have greater employment opportunities in governmental, industrial, commercial and academic institutes.

##### 2) Policy for Curriculum Implementation

In their coursework, students will gain a solid understanding of research methods and basic knowledge of the Asia Pacific, upon which they will pursue subjects primarily in their respective divisions. They may also take subjects from the International Cooperation Policy Major and other divisions.

Based on their individual research topics, students will receive research supervision and work on a final written assignment in the seminars.

#### Master's Program in International Cooperation Policy

##### 1) Policy for Curriculum Structure

In light of the educational objectives stipulated in the Graduate School Regulations, the Master's Program in International Cooperation Policy is composed of four Divisions, International Public Administration, Sustainability Science, Tourism and Hospitality, and Development Economics, each with its own curriculum.

Each Division will offer its own Major Subjects, and Analytical Foundation Subjects and Core Subjects on the Asia Pacific Region will be offered jointly with the Asia Pacific Studies Major to provide students with basic research skills and knowledge on the Asia Pacific. Meanwhile, students will receive individual research supervision in the Seminars.

##### a) International Public Administration (IPA)

The International Public Administration (IPA) division is aimed at providing knowledge and skills to those who are interested in pursuing an advancing career in national and international governmental organizations in an era of increasing globalization. The study at the division

enables students to improve professional and practical skills to manage and evaluate administrative operations and policies in national, regional, and global settings. The major courses in this division related to international organizations, international cooperation policy, and public administration form the foundation, on which each student can further build more focused study depending on their intended policy fields.

b) Sustainability Science (SS)

Sustainability Science (SS) is the application of science for achieving the goals of sustainable development. Sustainability Science is about using science in the analysis, planning and implementation of policies and actions dealing with interactions between society and nature with a view to creating a sustainable future for all. It involves the scientific understanding of society-nature interactions; linking research with policy and actions; generating new knowledge, tools and techniques; and enhancing scientific and institutional capability for promoting resilience and sustainability. The students are expected to gain holistic perspective, integrative skills, and trans-disciplinary orientation as they engage in analyzing and managing population-resource-technology-institution interactions relevant to particular problems or ecological settings in both man-made and natural ecosystems.

c) Tourism and Hospitality (TH)

Tourism is a fast growing economic sector that transforms societies and communities in the Asia Pacific region. The Tourism and Hospitality (TH) division looks at various aspects of tourism (both mass tourism and alternative tourism) and its economic, social, cultural and environmental impacts on societies and communities, mostly through the lenses of the human and social sciences. The division also studies the theory and practice of hospitality management as it relates to the tourism, service, and health and welfare industries. The knowledge and academic / professional skills obtained from our division will be useful to a wide variety of employment opportunities, in government service, international organizations, and private corporations, as well as to further study in Master's and Doctoral programs.

d) Development Economics (DE)

The Development Economics (DE) division is aimed at those who are interested in the socio-economic issues of the developing world. Study in this division enables students to improve their critical and analytical skills in development economics, including industrial development, social development, political development, rural development and poverty alleviation, as well enhancing their professional and practical skills related to international development. This division also aims to enhance the development of research skills in this field for those who are wishing to pursue further study. The knowledge and skills obtained will provide a wide variety of employment opportunities in international organizations, national and local governments, international development agencies, NGOs, and development consultancy firms.

2) Policy for Curriculum Implementation

In their coursework, students will gain a solid understanding of research methods and basic knowledge of the Asia Pacific, upon which they will pursue subjects primarily in their respective divisions. They may also take subjects from the Asia Pacific Studies Major and other divisions.

Based on their individual research topics, students will receive research supervision and work on a final written assignment in the seminars.

## Conferral of Degrees

The GSA Faculty Council will review each student's credit record and the results of the Master's Thesis or Research Report examination. The reviewed results will be presented to the Higher Degrees Committee for approval. Following approval by the Higher Degrees Committee, the president will confer the Master's Degree.

## Rescindment of Degrees

If it is found that a graduate has obtained their degree through improper means, or if the recipient has done anything to damage the University's reputation, the President may decide to rescind (cancel) a degree previously granted.

## Divisions and Programs

Graduate students must belong to one of the following Divisions that they chose when applying for the program.

### GSAM Majors, Divisions and Programs

Major	Division
Asia Pacific Studies	International Relations (IR)
	Society and Culture (SC)
International Cooperation Policy	International Public Administration (IPA)
	Sustainability Science (SS)
	International Material Flow Management Program (IMAT)
	Tourism and Hospitality (TH)
	Development Economics (DE)

### International Material Flow Management (IMAT) Program

IMAT Dual Degree program students spend their first year studying at APU and the second year at the Institute for Applied Material Flow Management (IfaS), University of Applied Sciences Trier, Germany. The program offers an integrated knowledge in engineering, economics, law, natural and social sciences. In addition to the learning goals of the Sustainability Science division, the program also offers knowledge on how to link economic development with environmental protection in the fields of energy, water, waste or other material streams, through the use of optimized technology management strategies. Students will also have the opportunity to participate in an internship in Germany. At APU, the IMAT Program belongs to the Sustainability Science division. As such, completion requirements for the APU portion of the program are the same as those for the Sustainability Science division (see p. 4-5). However, IMAT students will be expected to take some specific subjects and participate in extra IMAT classes held throughout the year.

Due to the intense nature of this dual-degree program, students must be enrolled for the full 2 years. Students from the Sustainability Science division who wish to participate in the program after enrolling at APU may do so by submitting the prescribed form by the last working day of November in their first year of enrollment. For the final written outcome of their studies, IMAT students submit a Master's Thesis or Research Report to APU and a Master's Thesis to IfaS in Germany.

### Recommended Elective Subjects

Recommended Elective Subjects are a combination of subjects outside the Major Subjects for the student's affiliated Division designed to deepen students' knowledge in their respective research field. Students are recommended to take the Recommended Elective Subjects listed under their Division in addition to the Major Subjects 1. Credits earned from these subjects will **NOT** fulfill the **Major Subjects 1** requirement but will count towards the credits required for program completion under the Major Subject 2 category.

### Special Studies

In general, Special Studies serve to supplement the content not sufficiently covered by regular subjects in the respective fields. Students may take these Special Studies multiple times only if the contents of the lectures differ.

## 1-4. Seminars

### Operation of Seminars

Seminars are subjects designed to help students with the preliminary readings and research, determination of a research topic, and to start systematic research and data collection. These subjects also help students to strengthen their research, writing, and presentation skills and enrich their research through comments, suggestions and guidance by their individual supervisors, other faculty members, and fellow students.

Students will be registered for Seminars following the schedule below in accordance with their enrollment status (program completion length, semester of enrollment, supervisor).

Seminars' subject titles are Research Project I, II, III or Final Research Project. Research Project I refers to the seminar class in the 1st semester, Research Project II – to the one in the 2nd semester and Research Project III – to the 3rd semester seminar class. The Final Research Project is registered for the final semester at APU.

1. All students must take Seminars consecutively from the first semester through the last semester of enrollment.
2. Students must complete one of the three Research Projects (Research Project I, II or III) **and** the Final Research Project.
3. The Master's Thesis or the Research Report is to be submitted during the semester in which Final Research Project is registered.

※During the course of study, students must take seminars as designated below.

Program Length	1st Semester	2nd Semester	3rd Semester	4th Semester
2-year Standard Completion	Research Project I	Research Project II	Research Project III	Final Research Project
1.5-year Accelerated Completion	Research Project I	Research Project II	Final Research Project	<b>Program Completion</b>
1-year Accelerated Completion	Research Project I	Final Research Project	<b>Program Completion</b>	

### Seminar Structure

Seminars consists of the following two elements.

#### Individual Supervision

Every student is assigned an individual supervisor from their affiliated Division. The student will meet with their supervisor on an individual or small group basis and all meetings are scheduled individually between supervisors and students.

#### Joint Research Presentations

In principle, Joint Research Presentations will be held at least once per quarter and all faculty members and students shall attend the Joint Research Presentation within their Division. These presentations provide students with opportunities to present their research and receive feedback from faculty members other than their supervisors. The presentation requirements, including the timing and the number of the presentations, differ per Division and may depend on the student's enrollment status (1st semester, final semester, accelerated completion program, etc.). Students should consult with their supervisor and the Division Head for their presentation schedule, and should follow other details specified by their specific Division. Moreover, as a rule, all students are required to give a presentation at least once before the submission of their Master's Thesis / Research Report.

#### Joint Research Presentations Schedule

	Spring Semester	Fall Semester
Quarter 1	the Wednesday on or immediately before May 15	the Wednesday on or immediately before November 15
Quarter 2	the Wednesday on or immediately before July 10	the Wednesday on or immediately before January 15

### First Seminar Meeting and Choosing a Seminar Supervisor

The **First Seminar Meetings** are organized for each Division on the 1st Wednesday after classes for the semester have begun to provide new students with an opportunity to meet with professors from each Division and choose a supervisor. After the First Seminar Meeting, all consecutive meetings are scheduled between supervisors and students. Please contact the Academic Office for any inquiries regarding the

## Seminar Registration for New Enrollees

New enrollees will be automatically registered for “[Research Project I SA / FA](#)” under the name of the Dean of the Graduate School of Asia Pacific Studies. The Academic Office will update students’ seminar registration once the supervisors have been decided. Students should confirm their registration via Campusmate during Correction Period 2.

## Plan for Research Supervision

The Graduate School of Asia Pacific Studies requires that the supervisor prepare a yearly plan for research supervision, present it to the student in advance, and conduct research supervision in accordance with this yearly plan. The Plan is created based on a research plan written by the student and presented to their supervisor. It reflects the student’s individual research and is provided to students as a tool to help lead them to the successful completion of high-quality research.

The Plan establishes a guideline for students to follow to progress with their research in the subsequent year. It also serves as a reference point the supervisor can use to monitor the progress of the student’s research.

The student prepares a research plan at the beginning of their 1st and 3rd semesters and presents it to their supervisor who will, in consultation with the student, write and present the student with the Plan for Research Supervision for that year. Upon confirmation, both the student and the supervisor sign the Plan, and the student submits a copy to the Academic Office for record-keeping.

### Plan for Research Supervision Submission Deadline

	Spring Semester	Fall Semester
1st-semester students	May 31	November 30
3rd-semester students	April 15	October 15
Submission Location	Academic Office	

**Note:** If the deadline falls on a weekend or a holiday, or a day when the office is closed, the deadline will move to the immediately preceding working day.

**Note 1:** Students who have changed supervisors: the new supervisor will prepare and present a yearly Plan for Research Supervision. Please provide your new supervisor with your research plan so they can do so. The period of research supervision indicated in the Plan will depend on the time left until completion.

**Note 2:** A new Plan for Research Supervision will need to be prepared by students who extend their graduate program, as well as reinstated / readmitted students. Please present your supervisor with an updated research plan so they can prepare a new research supervision plan. The period of research supervision indicated in the Plan will depend on the extension period for students who are extending their programs and on the period until completion for reinstated / readmitted students.

## 1-5. Master’s Thesis and Research Report

All students must complete an extended piece of writing (Master’s Thesis or Research Report) which presents the findings and conclusions of their individual research. A Master’s Thesis or a Research Report is the accumulation of work and studies done in the seminar classes during the time enrolled at APU. Both APS and ICP students can choose between Master’s Thesis or Research Report in the process of taking the seminar classes and in consultation with their supervisor.

Writing a solid research proposal is the first step towards the completion of a Master’s Thesis or Research Report.

### Research Proposal

All students must submit a research proposal approved by their supervisor for examination within the Division by the deadline set for their completion program. The research proposal should include the theme of the study, the research background and research question, the significance of the study, methodology, and other specific information. Students should carefully read the “Procedures for Master’s Thesis and Research Report in GSAM” and refer to the Graduate School website for further details about research proposal submission and deadline.

Research Proposal Submission Period:

1 year completion: 1st semester (when registered for Research Project I)

1.5 and 2 year completion: 2nd semester (when registered for research Project II)

### Notification of Intent to Submit a Master’s Thesis / Research Report

All students in their final semester should submit a Notification of Intent to Submit a Master’s Thesis or a Research Report accompanied by a summary of their Master’s Thesis / Research Report. Please refer to the Graduate School webpage for the appropriate form and submission deadlines. Notification of Intent and submission of a summary of the Master’s Thesis / Research Report is required to ensure that appropriate examiners are appointed and a fair examination is conducted.

**NOTE:** Failure to submit this form may result in an inappropriate selection of examiners which may also affect the entire examination process and result.

### Features and Characteristics of the Master’s Thesis / Research Report

Features common to both the Master’s Thesis and Research Report:

1. They require a submission and approval of a research proposal, outlining the topic, before the start of research.
2. They require presentation at the Joint Research Presentation prior to submission.
3. They are approximately 15,000 words long.
4. They are submitted and examined within the same deadline and according to the same procedures.
5. They are examined by two faculty members – the supervisor and another professor.

Characteristics:

Master’s Thesis	Research Report
<ol style="list-style-type: none"><li>1. Specific analytical frameworks with extensive literature review, research questions, and hypotheses as well as explicit methodology that is common to a given academic field.</li><li>2. The empirical findings contain originality and provide new knowledge for academics, practitioners, or society.</li></ol>	<ol style="list-style-type: none"><li>1. Research background and research objectives are clearly indicated. It is recommended that analytical frameworks be set up; however, this is not compulsory.</li><li>2. It is not mandatory to contribute anything new to the existing academic field.</li></ol>

### Procedures for the Master’s Thesis and Research Report

All students should carefully read the procedures related to the Master’s Theses and Research Reports in the Graduate School of Asia Pacific Studies outlining the examination requirements and procedures (see p. 15-28 for details). This information is also summarized in the flow chart on page 14.

## **1. Master's Thesis Committee**

A Master's Thesis Committee is established within GSA to administer the procedures for examination and evaluation of Master's Theses and Research Reports.

## **2. Master's Thesis Committee Structure**

The Master's Thesis Committee shall consist of one chairperson and two members nominated by the Dean and approved by the GSA Faculty Council. The Associate Dean of GSA will chair the Master's Thesis Committee and members will be appointed from each Major. The term of appointment is one (1) year and members can be reappointed.

## **3. Master's Thesis or Research Report**

Students are required to submit a Master's Thesis or Research Report and pass the screening and examination to obtain a Master's Degree in GSA. A faculty member within the Major and Division to which the Master's student is affiliated will become the student's supervisor. The length of a Master's Thesis/Research Report shall be approximately 15,000 words long, not counting the bibliography and any appendices. However, the length may vary depending on the discipline and may be set by the Division. In the case of Japanese language, the length shall be equivalent to the standards set for English language Master's Theses and Research Reports.

## **4. Master's Thesis/Research Report Language**

The Master's Thesis or Research Report should normally be presented in English and, as a general rule, each submitted Master's Thesis or Research Report should include an abstract in English. However, in the case that it is to the advantage of the student to present his/her Master's Thesis/Research Report in Japanese due to the original data and research materials being mostly found in Japanese sources, etc., the student may be allowed to do so upon approval by the Dean. In such cases, an extended abstract in English must be provided.

## **5. Joint Research Presentations**

Joint Research Presentations within each Division will be held every quarter. In these presentations, students will present the main points and current progress of their research to the faculty members and students affiliated with their Division for feedback. As a rule, all students are required to give a presentation at least once before the submission of the Master's Thesis/Research Report.

## **6. Research Proposal Approval**

Students are required to submit a Research Proposal approved by their supervisor to the Academic Office for examination by the Division as stipulated in Clause 14, Table 1.

## **7. Master's Thesis/Research Report Submission**

### **7-1. Notification of Intent to Submit a Master's Thesis/Research Report**

Students must submit a Notification of Intent to Submit a Master's Thesis/Research Report, describing the type and outline of the Master's Thesis/Research Report, to the Academic Office at least one month before the submission deadline specified in Clause 14, Table 2.

### **7-2. Changing type of Final Written Outcome**

Even after submission of the Notification of Intent to Submit a Master's Thesis/Research Report, the type of Final Written Outcome may be changed until the submission deadline specified in Clause 14, Table 2.

Students who wish to change the type of Final Written Outcome must apply for the change with the approval of their supervisor, after which it will be authorized by the Dean. However, under no circumstances is a change in the type of Final Written Outcome permitted after it has been submitted for screening and examination.

### 7-3. Submission

Students must submit one soft copy of their Master's Thesis/Research Report to the Academic Office as stipulated in Clause 14, Table 2. As a rule, all students are required to give a presentation at least once before the submission of the Master's Thesis/Research Report.

### 7-4. Re-submission

Students who have passed the oral examination as per 11-1, and have made all corrections as detailed in the evaluation report per 11-3, must submit one soft copy of their Master's Thesis/Research Report to the Academic Office by the due date as stipulated in Clause 14, Table 2.

## 8. Master's Thesis/Research Report Format

In principle, a Master's Thesis/Research Report should contain the following:

1. Title Page, 2. Table of Contents (should describe the contents in sufficient detail), 3. Certification Page (that the Master's Thesis/Research Report contains only original and/or properly referenced material), 4. Acknowledgements (for any support and advice given), 5. Abstract, 6. Main Text, 7. Conclusions, 8. References, 9. Appendices (supporting material in addition to the main text)

## 9. Examiners

- (1) Two (2) faculty members will examine the Master's Thesis/Research Report. The supervisor will be one of the examiners and the other examiner will be appointed by the Division Head from within the Division. However, examiners from different Divisions may also be selected.
- (2) If it is beneficial in light of the content of the Master's Thesis/Research Report, and the Division Head and supervisor propose so, the Dean may approve the appointment of a faculty member without graduate school qualifications.
- (3) In the case that the Division Head is the student's supervisor, the Dean or the Associate Dean of GSA shall appoint the second examiner for them. The examiners will be advised of each other's names.

## 10. Screening and Examination Criteria of Master's Thesis/Research Report

The Master's Thesis/Research Report should achieve or exceed the quality of research of peers working in the same field at the graduate level. The research project is assessed based on the following criteria, among others.

### 10-1. Master's Thesis

#### 1) Originality

The Master's Thesis provides original knowledge in terms of theories, methods, or empirical findings for academics, practitioners, or society.

#### 2) Research Question/Topic

The research question/topic is well-thought-out in its field's standard and is defined within the discipline's current paradigm and context of academic literature.

#### 3) Literature Review

The literature referenced in the Master's Thesis is extensive, encompassing a broad range of sources and has the context to fully cover the necessary academic and other material to define and defend the research project's originality and significance.

4) Methodology

The Master's Thesis is grounded in objectively appropriate theory and uses well-considered methodologies to determine results.

5) Structure

The Master's Thesis structure allows for precise and logical communication of information to the audience.

The structure of the Research Report allows for precise and logical communication of information to the audience.

4) Discussion

The Research Report provides solid/sound reasons for its conclusions.

5) Writing

The text is clear and concise without unnecessary repetition and is written in the format of an argument with substantial evidence and claims. The writing adheres to standard research practices for citations and works cited without any instances of plagiarism.

## 10-3. Oral Examination

1) The oral examination will be based on the content of the submitted Master's Thesis/Research Report, and through questions on its content, will determine if the student's knowledge of the subject, specialized field, and compliance with research ethics is sufficient to award them with a Master's Degree.

2) The oral examination is not an opportunity for the student to give a presentation. It is not permitted to submit new materials or request to give a presentation.

## 11. Screening/Examination Process

### 11-1. The Oral Examination

Examiners shall conduct an oral examination of the submitted Master's Theses/Research Reports. However, examiners may deem it necessary for students to undergo an additional written, oral, or practical examination.

The examiners shall submit only one mutually agreed upon evaluation result to the Master's Thesis Committee from among the following possible results:

1) Pass (Meets the standard for a Master's Thesis/Research Report. May include points that need correction and can be revised by the resubmission due date, such as formatting or typographical errors and requests for small amendments or expansions of data or text).

2) Fail (Does not meet the standard for a Master's Thesis/Research Report)

In addition to the mutually agreed upon evaluation result, each examiner shall submit an individual evaluation report to be presented to the student.

#### 11-2. Determining the Oral Examination Results

The examination evaluation given by the examiners shall be deliberated and approved by the Master's Thesis Committee. The approved results shall be reported to the Dean or the Associate Dean of GSA for determining the examination results.

In cases where the results from the examiners are judged to be incongruent, the Master's Thesis Committee will deliberate on how to handle the cases individually and the final result of such cases will be determined in consultation with the Dean.

#### 11-3. Notifying Students of the Oral Examination Results

Students shall receive notification of the examination results, the names of the examiners, and copies of the examiners' evaluation reports.

#### 11-4. Screening

The examiners will screen the Master's Thesis/Research Report upon re-submission by the student after the Oral Examination. However, examiners may deem it necessary for students to undergo an additional written, oral, or practical examination. The examiners shall again submit only one mutually agreed upon evaluation result to the Master's Thesis Committee from among the following possible results:

1) Pass

2) Fail

In addition to the mutually agreed upon evaluation result, each examiner shall submit an individual evaluation report to be presented to the student.

#### 11-5. Determining the Screening Results

The screening evaluation given by the examiners shall be deliberated and approved by the Master's Thesis Committee. The approved result shall be reported to the Dean or the Associate Dean of GSA for determining the screening results.

In cases where the results from the examiners are judged to be incongruent, the Master's Thesis Committee will deliberate on how to handle the cases individually and the final result of such cases will be determined in consultation with the Dean.

#### 11-6. Notifying Students of the Screening Results

Students shall receive notification of the screening results, the names of the examiners, and copies of the examiners' evaluation reports.

## 12. Overall Evaluation for the Final Research Project

Supervisors shall evaluate the overall grade for the Final Research Project based on the Master’s Thesis Committee’s final decision regarding the Master’s Thesis/Research Report.

## 13. Appeal Procedures

A student whose result as determined by the Master’s Thesis Committee is “Fail” may appeal that decision.

A student who wishes to appeal must submit a written appeal to the Academic Office addressed to the Master’s Thesis Committee within one (1) week of the announcement of the examination results. The submission must clearly [in a detailed and precise manner] state the grounds on which the appeal is based. The Master’s Thesis Committee in consultation with the Dean will review the submission and decide whether or not to accept the appeal for evaluation. If an appeal has been accepted for evaluation, an Appeals Committee shall be established consisting of the Chair of the Master’s Thesis Committee, the Dean, and one other person who has recognized expertise in the area of the student’s Master’s Thesis/Research Report, but who has neither previously examined the Master’s Thesis/Research Report nor supervised the student. In the case that the Chair of the Master’s Thesis Committee and/or the Dean is the student’s supervisor, a third person shall be appointed as a member of this Committee instead. The Appeals Committee will decide how to conduct the appeal and whether to require the student to present further evidence in written or oral form to substantiate the grounds of the appeal as stated in the original submission. After review and careful consideration of all related materials and documents, the Appeals Committee will determine the final evaluation of the case as follows:

- 1) Reject the appeal, the result originally announced to the student remains unchanged.
- 2) Accept the appeal, the result originally announced to the students will be changed to “Pass”.

However, if in the process of evaluating the appeal new evidence of plagiarism, research misconduct, etc. is uncovered, the Master’s Thesis/Research Report will be failed.

The final result of the appeal accompanied by appropriate feedback will be announced to the student, barring any unavoidable circumstances, by the day of the Graduation Ceremony for that semester.

Ph.D.	Asia Pacific Studies (APS)	Doctor of Philosophy in Asia Pacific Studies

### Graduate School of Asia Pacific Studies, Doctoral Program - Structure and Outline

#### 1) Policy for Curriculum Structure

The Program offers common coursework on theories and perspectives of Asia Pacific Studies, upon which students receive research supervision based on their individual research topics in seminars. Students also write research papers and take coursework on presentations.

#### 2) Policy for Curriculum Implementation

After completing their coursework and seminars, students must pass the doctoral candidacy process (which requires among others the completion of at least 24 credits and the submission of dissertation chapters for screening) before submitting their doctoral dissertation. Degrees are awarded to those candidates who pass the dissertation screening.

### Conferral of Degrees

The GSA Faculty Council will review the results of each student's Doctoral Dissertation screening. The reviewed results will be presented to the Higher Degrees Committee for approval. Following approval by the Higher Degrees Committee, the president will confer the Doctoral Degrees to successful candidates.

### Rescindment of Degrees

If it is found that a graduate has obtained their degree through improper means, or if the recipient does anything to damage the University's reputation, the President may decide to rescind (cancel) a degree previously granted.

## 2-2. Course Requirements and Credit Registration Limits

### Basic Requirements for Completion

Students will be qualified for the degree upon completion of the following requirements:

1. **Period of Enrollment:** In principle, a student must be enrolled as a regular, full-time student in the Doctoral Program for 3 years. ## 2-4. Doctoral Candidacy (Registration for the Award of a Doctoral Degree)

At APU, Doctoral Candidacy is defined as a condition for students to be eligible to submit their dissertation for examination, by showing their capacity and vigor in conducting their research independently. To become a doctoral ‘candidate’, a student must apply to the Dissertation Committee by meeting the following requirements. Once candidacy is achieved, the student is registered as a candidate for the award of Doctoral degree and is eligible to submit their dissertation for examination, having the other completion requirements fulfilled.

### Candidacy Submission Requirements

The requirements for applying for Doctoral Candidacy are as follows.

- Passing the **Dissertation Proposal Defense**
- Passing the **Pre-candidacy Oral Examination**
- **Acquisition of 24 credits**
- Submission of the **dissertation chapters** (Introduction, Literature Review, Methodology, Findings/Results, and Discussion)
- Submission of the designated **application form**

N.B. Applicants may be asked, upon request by the Dissertation Committee in the process of screening, to submit other works to supplement their deliberations.

Students enrolled in the 3-year standard completion program are expected to complete the credits required for candidacy application by the end of their 4th semester while those enrolled in the 2-year accelerated completion program – by the end of their 2nd semester. See the “List of GSAD Subjects and Credits” for details.

Students are encouraged to submit additional papers to show that they have the potential to advance in their field.

- Published journal articles
- Conference papers
- Papers written as part of the classes Research Paper I and II

### Candidacy Screening Schedule

Students can apply for Candidacy at any given time within the semester if they fulfill the requirements. If aiming for notification of result within the same semester, students are advised to follow the below deadlines.

	Spring Semester	Fall Semester
Submission	By July 5	By January 10
Notification of Result	Within 6 weeks of submission	

**Note 1:** The screening period may be extended upon decision by the Dissertation Committee.

**Note 2:** If the deadline falls on a weekend or a holiday, or a day when the office is closed, the deadline will move to the immediately preceding working day.

**Note 3:** The screening of applications submitted during summer/winter break may take up to 3 months.

### Candidacy Screening Process

Candidacy applications will be screened by the Dissertation Committee and students will be notified of the screening result.

Students who **pass** Doctoral Candidacy screening may continue working toward the completion of their dissertation and are eligible to submit their dissertation once it is ready and approved by their supervisor.

Students who **fail** screening should revise and resubmit their dissertation chapters in accordance with the Dissertation Committee’s recommendations. Students should bear in mind that they cannot submit their dissertations until they have successfully achieved candidacy.

## 2-5. Doctoral Dissertations (Application for Conferral of the Doctoral Degree)

Doctoral dissertations are the final piece of work required to complete the Doctoral Program.

### Features of Doctoral Dissertations

1. Dissertations should be the result of original investigation and / or should embody a critical appraisal or analysis of a primary or secondary source.
2. Dissertations should be deemed a contribution to a body of knowledge and be worthy of publication.

### Dissertation Format

Regarding the dissertation format, please see Clause 7 of the “Procedures for the Conferral of Doctoral Degrees in the Graduate School of Asia Pacific Studies”.

### Submission of Doctoral Dissertations

#### Submission Requirements

Doctoral candidates may submit a completed dissertation and the following required documents after obtaining candidacy. Since the examination process cannot be canceled or reversed once it has begun, candidates must consult closely with their supervisor before submitting their dissertation.

**Required Documents** (all forms are available on the Graduate School website)

- Completed dissertation
- Abstract of the dissertation
- Dissertation Register
- Curriculum Vitae (candidates may submit their CV in their format of choice)
- Doctoral Dissertation Screening Application and Certificate of Authority (signed by both the candidate and their supervisor)

### Doctoral Dissertation Submission Deadlines

Candidates must apply for conferral of a doctoral degree at least 6 months before their desired program completion date. The screening of applications submitted during summer/winter breaks may take up to 3 months.

### The Handling of Dissertations after Program Completion

Once candidates have successfully completed their oral defense they will be asked to submit the final version of their dissertation to the Academic Office for preservation. A hard copy of the dissertation will be printed and stored in the APU library. The soft copy will be uploaded to the APU Library / R-Cube and the National Diet Library in accordance with the Japanese Ministry of Education, Culture, Sports, Science and Technology (MEXT) requirements that all doctoral dissertations be made publicly available online.

Candidates are asked to submit a consent form confirming that they agree to make their dissertation available via the APU Library / R-Cube and the National Diet Library of Japan. If the candidate does not agree to immediate uploading, they can request a deferral of the date of making the dissertation publicly available online for up to 5 years (see the application form).

#### Points to be aware of:

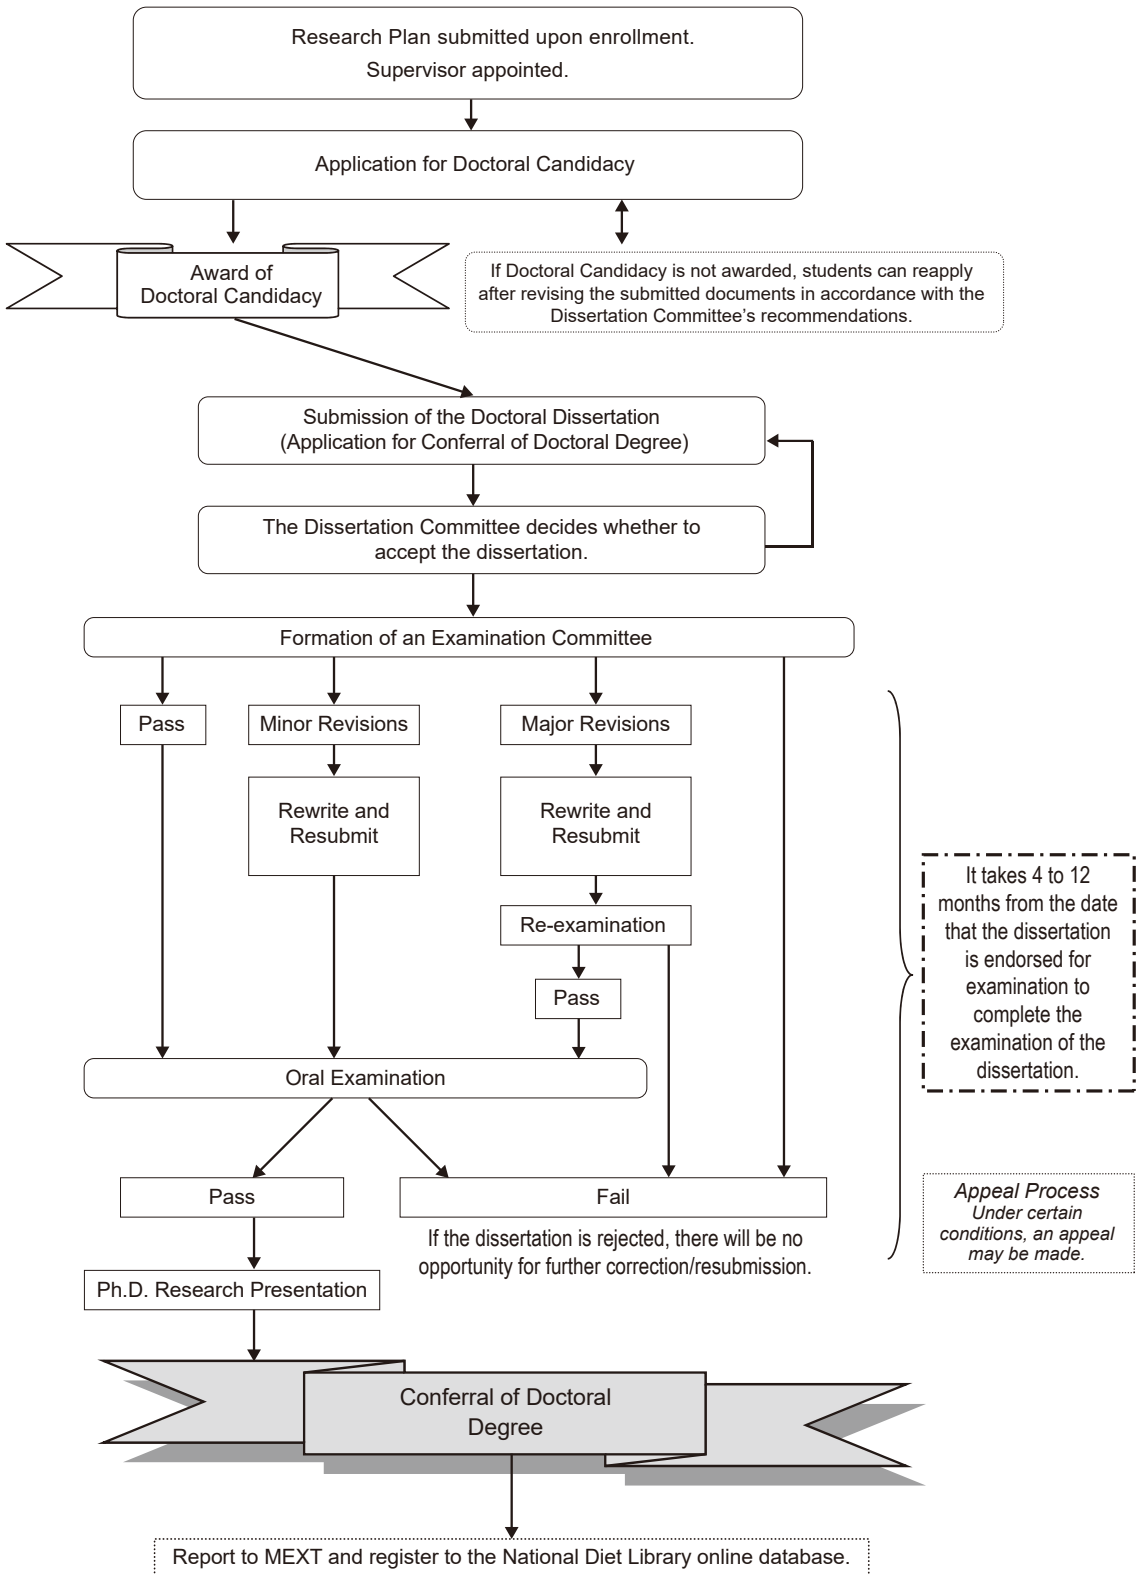

- 1) Candidates retain the copyrights of their dissertation even after they are made publicly available online.
- 2) If the copyright of the candidate’s work is held by a third party (e.g. a publisher or academic society) the candidate must obtain permission to upload the dissertation by the copyright holder.
- 3) If information from interviews or surveys is included in the dissertation, candidates should make sure they handle all personal information appropriately and gain informed consent in writing regarding information used.

**Note:** For more information on research ethics and correct research practices please refer to the information on the Academic Information for Graduate Students Website, under "Research and Writing - Research Support".

### Procedures for the Conferral of Doctoral Degrees in the Graduate School of Asia Pacific Studies

All students should carefully read the procedures related to the Conferral of Doctoral Degrees in the Graduate School of Asia Pacific Studies outlining the examination standards, requirements and procedures in details (p. 37-66). This information is summarized in the flow chart on the following page.

## Examination Flow for the GSAD Dissertations

## 2-6. Other Important Information for GSAD Students

### Plan for Research Supervision

The Graduate School of Asia Pacific Studies requires that the supervisor prepare a yearly plan for research supervision, present it to the student in advance, and conduct research supervision in accordance with this yearly plan. The Plan is created based on a research plan written by the student and presented to their supervisor. It reflects the student's individual research and is provided to students as a tool to help lead them to the successful completion of high-quality research.

The Plan establishes a guideline for students to follow to progress with their research in the subsequent year. It also serves as a reference point the supervisor can use to monitor the progress of the student's research.

The student prepares a research plan at the beginning of the 1st, 3rd, and 5th semesters and presents it to their supervisor who will, in consultation with the student, write and present the student with the Plan for Research Supervision for that year. Upon confirmation, both the student and supervisor sign the Plan, and the student submits a copy to the Academic Office for record-keeping.

#### Plan for Research Supervision Submission Deadline

	Spring Semester	Fall Semester
1st-semester students	May 31	November 30
3rd-semester students and above	April 15	October 15
Submission Location	Academic Office	

**Note 1:** Students who have changed their supervisor: the new supervisor will prepare and present a yearly Plan for Research Supervision. Please provide your new supervisor with your research plan so they can do so. The period of research supervision in the Plan will depend on the time left until graduation.

**Note 2:** A Plan for Research Supervision will need to be prepared by students who extend their graduate program, as well as reinstated / readmitted students. Please present your supervisor with an updated research plan so they can prepare a new research supervision plan. The period of research supervision indicated in the Plan will depend on the extension period for students who are extending their programs and on the period until graduation for reinstated / readmitted students.

### Graduate Research in Progress Seminars (GRiPS)

The Graduate Research in Progress Seminars (GRiPS) provide students with an opportunity to gain presentation experience, receive constructive feedback, and get a formal report on their progress from GSA faculty. GRiPS also prepares them for the difficulty of the oral presentation and defense of their dissertation, which is required for obtaining a doctoral degree.

GRiPS is not only beneficial to Ph.D. students currently working on their research, but also to graduate students who wish to learn more about the Ph.D. program and the research involved. Presenters are expected to discuss the progress of their research and respond to questions and comments from the audience.

Students are required to present twice while enrolled in the program as follows:

- 1) By the end of the 2nd semester (Dissertation Proposal Defense)
- 2) Before applying for Doctoral Candidacy (Pre-candidacy Oral Examination)

Please refer to the Graduate School website for more details on GRiPS.

### Options for Students Unable to Complete the Program within 3 Years

As the standard Doctoral Program length at APU is 3 years (6 semesters), students entering their 7th semester or above need to consider whether to extend their enrollment in the Doctoral Program, to take a Leave of Absence, or to withdraw from the University. Enrollment options for students in their 6th semester and beyond are explained in more detail below.

#### Extension of Period of Enrollment

Students wishing to stay enrolled in the Doctoral Program must submit an application for extension to the Academic Office each semester they wish to continue their enrollment after their 6th semester. Students should carefully consult with their supervisors before submitting the application. Once an application is received, it shall be reviewed by the GSA Faculty Council for approval.

Documents to Submit:

1. Application for Extension of Period of Enrollment to Complete Doctoral Dissertation (please include an abstract / overview of your research and a list of your past research achievements).
2. Doctoral Dissertation Composition Schedule (please ask your supervisor to add their signature and a comment).

**Submission Deadlines**

- The last working day on or before January 10 (for extension in the Spring Semester)
- The last working day on or before July 10 (for extension in the Fall Semester).

**Withdrawal or Leave of Absence**

Students who need more time before they are ready to submit their dissertation for screening may consider withdrawing from the program or taking a Leave of Absence. The period of withdrawal is counted towards the 6 year maximum enrollment period, while the Leave of Absence period is NOT as shown in the example below. Students nearing the end of their eligibility period or wishing to be re-admitted or reinstated are strongly encouraged to discuss possible alternatives with their supervisors, the Student Office and the Academic Office.

Example: Enrollment Options

Enrollment		Options		All Program Requirements Must Be Completed By:
2024 Spring Semester	➡	Withdrawal for 1 year	➡	2029 Fall Semester
2024 Spring Semester	➡	Leave of Absence for 1 year*	➡	2030 Fall Semester

\*Maximum Leave of Absence period is four consecutive semesters (2 years).

Please note that the student’s enrollment must be valid at the following times:

1. when applying for candidacy
2. during the screening of the candidacy application
3. when submitting their Doctoral Dissertation
4. during the screening of the Doctoral Dissertation

**Notes regarding Withdrawal and Leave of Absence:**

1. Students must be reinstated into the Graduate School before applying for candidacy and submitting their dissertation and must be enrolled in the Graduate School during the screening process.
2. International student visas shall no longer be valid upon Withdraw or Leave of Absence from APU. International students who choose this option must leave Japan. Students should bear this in mind when deciding whether to extend or withdraw from the program.
3. If a student withdraws from APU for a certain period, his / her enrollment status after re-admission as shown on Campusmate etc. will not match with the number of semesters left for program completion.
4. Procedures for Withdrawal and Leave of Absence are carried out at the Student Office.

※ Students should consult with their supervisor and the Academic / Student Offices for any questions or concerns regarding the Extension / Withdrawal / Leave of Absence options.

## **1. The Doctoral Degree**

The doctoral degree is an academic degree certifying the completion of an academic program incorporating original research on a topic of the candidate's choice. This degree is conferred on those who satisfy the requirements for the completion of the doctoral program in the Graduate School of Asia Pacific Studies (hereinafter referred to as GSA).

The key conditions for the doctoral degree are as follows:

- a) A distinct contribution to a body of knowledge through an original investigation or testing of ideas that is worthy of publication.
- b) Competence in research processes (techniques and reporting).
- c) Mastery of a body of knowledge, including previous works, and keen understanding of their relationship to wider fields.

## **2. The Dissertation Committee**

A Dissertation Committee is established within GSA to administer the procedures for the conferral of a doctoral degree.

### **2-1. Selection and Term of Appointment**

The Dissertation Committee consists of a chairperson and two members who are recommended by the Dean of GSA and then appointed by the GSA Faculty Council. The term of appointment is one (1) year and members can be reappointed. The Dean cannot be a member.

### **2-2. Duties of the Dissertation Committee**

The duties of the Dissertation Committee are as follows:

- a) Ensure the impartiality and rigor of the examination process.
- b) Review applications for doctoral candidacy and decide whether to accept/approve the applications.
- c) Review submitted dissertations and decide whether to endorse them for examination.
- d) Form an Examination Committee upon endorsement of an application for conferral of a doctoral degree.
- e) Review the recommended outcomes and the evaluation reports from the Examination Committee and decide the examination result.
- f) Review the recommended outcomes and the evaluation reports from the Examination Committee and the examination standards, and decide the re-examination result.
- g) In the case of minor revisions, examine to confirm if the recommended changes have been made.
- h) Review the recommended outcomes and the evaluation reports from the Examination Committee after the oral defense and decide the final examination result.
- i) Determine if there are any grounds for plagiarism or other forms of research misconduct and report the conclusion to the Dean.

## **3. Supervision**

Each student enrolled in the doctoral program must have a supervisor who is a GSA member approved for PhD supervision, to support the student in the development of a research topic, formulating ideas and structuring them, and guiding the progress of the dissertation while the student is enrolled in the program. Students and supervisors should work together to sustain a supportive and collegial environment.

### **3-1. Selection of a Supervisor**

Students shall choose a GSA faculty member approved for PhD supervision who will accept them for supervision of their research activities through the completion of the doctoral program.

### 3-2. Responsibilities of the Student

Students are expected to have the capacity and enthusiasm to organize their own research and to work on their own initiative. Students are responsible for their own work.

Students should meet with their supervisors regularly to discuss research and academic progress and to receive feedback, comments, and critical reviews concerning their research project. They are expected to submit written work at regular intervals for discussion with their supervisor. Students should meet all deadlines as agreed with their supervisor. Students should confirm with their supervisor that their research is conducted in line with research ethics and rules for conducting research. They must receive approval from their supervisor regarding the content and structure of their dissertation before submitting it for examination.

### 3-3. Responsibilities of the Supervisor

The supervisor provides support, guidance, and timely feedback to facilitate successful completion of the dissertation. The supervisor encourages the student to seek advice from other experts on- and off-campus and ensures that the student observes the requisite ethics and rules for conducting research. The supervisor confirms that the dissertation is written in line with the established standards. The supervisor should verify the student's progress annually and inform them of the extent of their progress and the prospects for them completing the program.

The supervisor helps the student prepare for their dissertation examination, oral defense, and recommends appropriate examiners for the student's dissertation. The supervisor shall be a member of the Examination Committee and chair the oral defense.

## **4. Requirements for the Application for Conferral of a Doctoral Degree (Submission of the Doctoral Dissertation)**

Completion of all the following requirements is compulsory for the application for conferral of a doctoral degree (submission of the doctoral dissertation).

### 4-1. Dissertation Proposal Defense

Doctoral students must defend their dissertation proposal at the end of the second semester before GSA faculty at a Graduate Research in Progress Seminar (GRiPS). The proposal defense is open for GSA faculty and doctoral students to attend. The proposal may be evaluated by one or two other GSA faculty members recommended by the supervisor to help verify the proposal meets the level normally expected of a GSA student and thus these faculty can advise students whether they should continue with the doctoral program.

### 4-2. Preliminary Verification Before Registration for the Doctoral Degree Award (Pre-Candidacy Examination)

Doctoral students must make a preliminary oral presentation before registering for the doctoral degree award (Doctoral Candidacy). The oral presentation is conducted at a Graduate Research in Progress Seminar (GRiPS), open to GSA faculty and doctoral students to attend, and is assessed by one or two other GSA faculty members recommended by the supervisor. Students must satisfy the expectations of their supervisor in order to be allowed to apply for doctoral candidacy.

### 4-3. Registration for the Doctoral Degree Award (Doctoral Candidacy)

Doctoral Candidacy (hereinafter referred to as candidacy) is defined as a condition of eligibility for students to submit their dissertations for examination, and is demonstrated by showing their capacity and vigor in conducting their research independently. To become a doctoral candidate, a student must apply to the Dissertation Committee. Once candidacy is achieved, the student is registered as a candidate for the doctoral degree award and, having fulfilled the other requirements for completion, is eligible to submit

their dissertation for examination. The details of the requirements for Doctoral Candidacy are outlined in Section 6.

## **5. Graduate Research in Progress Seminars (GRiPS)**

The Graduate Research in Progress Seminars (GRiPS) provide students with an opportunity to gain presentation experience, receive constructive feedback, and get a formal report on their progress from GSA faculty. GRiPS also prepares them for the difficulty of the oral presentation and defense of their dissertation, which is required for obtaining a doctoral degree.

Students are required to present at GRiPS at least two (2) times: for their dissertation proposal defense and for their pre-candidacy oral examination.

## **6. Registration for the Doctoral Degree Award (Doctoral Candidacy)**

### **6-1. Doctoral Candidacy Requirements**

Students who want to apply for candidacy must satisfy all the following:

- d) Must have acquired twenty-four (24) credits from among the prescribed subjects.
- e) Must submit all the appropriate application forms.
- f) Must submit a soft copy of their doctoral dissertation that includes the Introduction, Literature Review, and Research Methods chapters as well as chapters on Findings/Results and at least some of their discussion.

### **6-2. Screening of the Application for Doctoral Candidacy**

Candidacy applications are reviewed by the Dissertation Committee and the results are announced to students within six (6) weeks of the application date. Doctoral students who pass the screening are referred to as candidates.

### **6-3. Period for Registration for Doctoral Candidacy**

Students can apply for doctoral candidacy throughout the academic year. Screening takes up to six (6) weeks for applications submitted April–June and October–December. Screening of applications submitted during summer/winter breaks may take up to three (3) months.

### **10-2. Eligibility Criteria for Appointing Examiners**

#### **10-2-1. Internal Examiners**

Internal examiners should be affiliated to one of the APU graduate schools and should normally hold doctoral-level supervising qualification status (D+). However, if deemed necessary based on the content of the dissertation, faculty who do not fit this profile may be appointed. In this case, the Dissertation Committee shall review the proposed faculty's CV and research accomplishments, and decide on the appropriateness of the selection accordingly.

#### **10-2-2. External Examiners**

External examiners should have competence in the field of the dissertation research. They must be from outside the university, hold a doctoral or equivalent degree, and have significant experience in examining doctoral dissertations or significant publishing or practical experience in the relevant field. The examiners shall be experts in the field of the dissertation but not necessarily in all parts of the precise topic. The aim should be to appoint a team of examiners who together can cover all aspects of the work to be presented by the candidate and who demonstrate experience with GSA's examination procedures.

The supervisor should coordinate the examination process, provide the necessary orientation regarding the research work, and chair the oral defense.

The internal examiner should reach a viewpoint on whether the candidate's research work and knowledge meet the standards normally expected of a GSA student and the university's criteria for awarding the degree.

#### 10-6. Changes to the Examination Committee

As a rule, the appointment of the members of the Examination Committee will last for the duration of the examination process, including re-examination and oral defense. However, if exceptional circumstances arise (e.g., an examiner retires, an examiner no longer wishes to participate in the examination, an examiner chooses not to re-examine, etc.), a new examiner shall be appointed by the Dissertation Committee. In that case, the decision of the remaining examiners will hold.

The fabrication or falsification of data and use of another person's ideas without proper acknowledgement are examples of other forms of unethical research conduct.

A dissertation involving plagiarism, fabrication, or falsification of data may be failed outright and the candidate may be dismissed from the program.

In cases of suspected or alleged plagiarism, fabrication, or falsification, or any other form of research misconduct, the Dissertation Committee determines whether the suspicions/allegations have any grounds. Cases will be presented to the Dean and the GSA Faculty Council, and if it is confirmed that there are such grounds, cases will be handled in accordance with the Ritsumeikan Asia Pacific University Regulations for Prevention of Misconduct in Research Activities.

The Dean will decide whether or not to conduct an investigation into the appeal and should provide a detailed report justifying their decision. An investigation will be conducted if the appeal statement provides reasonable evidence to defend the grounds of the appeal.

### **19-3. Appeals Committee**

#### **19-3-1. Members of the Appeals Committee**

An Appeals Committee shall be formed in the case it has been decided to conduct an investigation into the appeal.

The Appeals Committee will consist of three (3) members appointed by the Dean as follows:

- b) The Dean.
- c) Another person who has recognized expertise in the area of the candidate’s dissertation, but who ideally has neither previously examined nor supervised the dissertation. This third member can choose whether to disclose any identifying information to the student and other faculty members.

In the case the Chair of the Dissertation Committee is the candidate’s supervisor, another member of the Dissertation Committee shall be appointed, and if the Dean is the candidate’s supervisor, a third person shall be appointed as a member of this Committee instead.

#### **19-3-2. Duties of the Appeals Committee**

The Appeals Committee will decide how to conduct the investigation of the appeal and if deemed necessary, may require the candidate to present further evidence in written or oral form to substantiate the grounds of their appeal. The Appeals Committee will carefully investigate all documents related to the appeal during the investigation.

#### **19-3-3. Result of the Investigation**

The Appeals Committee will decide the final result of the appeal as follows and will provide an evaluation report to explain the rationale behind their decision, which may be:

- a) Reject the appeal, in which case the result originally announced to the candidate remains unchanged.
- b) Accept the appeal, in which case the dissertation is returned to the Dissertation Committee for a new examination by the Examination Committee whose members will be decided by the Dissertation Committee.

## **22. Archiving Dissertations and Registering Dissertations to the National Diet Library Online Database (Handling of Dissertations After Graduation)**

### **22-1. Archiving Doctoral Dissertations**

A soft copy of dissertations that pass examination and an abstract of said dissertations must be submitted by the student's date of completion of the doctoral program.

Dissertations in their entirety will be permanently bound and archived with the APU Library.

### **22-2. Registering Doctoral Dissertations to the National Diet Library Online Database (Making Dissertations Publicly Available Online)**

An abstract outlining the content of the dissertation and a summary of the doctoral dissertation examination results shall be made publicly available online within three (3) months of the conferral of the doctoral degree.

All doctoral dissertations that pass examination must be registered to the National Diet Library online database within one (1) year of the conferral of the doctoral degree. The registration is completed through uploading the dissertations in their entirety to the university online repository.

### **22-3. Exemptions from Registering Doctoral Dissertations to the National Diet Library Online Database**

In the case that any of the reasons stipulated below disallow a dissertation from being made publicly available online for more than one (1) year from the date of conferral of the doctoral degree, it will be possible to submit an extended summary of the content in place of the entire dissertation upon approval of the Dissertation Committee and GSA Faculty Council. However, in the case the reasons stipulated below cease to apply, the entire dissertation shall be made publicly available online.

- a) The doctoral dissertation cannot be made publicly available online for more than one (1) year from the date of degree conferral due to copyright or the protection of personal information.
- b) The doctoral dissertation cannot be made publicly available for more than one (1) year from the date of degree conferral because it would clearly be disadvantageous to the graduate as they are planning to publish their dissertation or part thereof, and making it publicly available online may infringe academic journal publication rules against multiple publications, or due to applications for patents pending approval. If the application is approved, the graduate may be granted an exemption from their dissertation being made publicly available online for a period of up to five (5) years from the date of degree conferral. After that time, if there are no other circumstances impeding the dissertation from being made publicly available online, then the dissertation will be automatically made publicly available online.
- c) Making the doctoral dissertation publicly available online for more than one (1) year from the date of degree conferral would clearly be disadvantageous to graduates who have published their dissertation or part thereof, and making it publicly available online infringes academic journal publication rules against multiple publications, or due to patents.
- d) The doctoral dissertation cannot be made publicly available online because it includes material that is

in a three-dimensional format.

#### **22-4. Declaration from the Candidate**

In line with the regulations stipulated in Articles 21-2 and 21-3, upon application for conferral of a doctoral degree candidates must confirm (using the prescribed form) to the Dissertation Committee that there are no problems with regard to copyright, patents, confidential information, or personal information which would impede making the dissertation public. Supervisors (or other faculty involved in the degree applicant's instruction) shall coordinate and assist during the process of confirmation.

#### **22-5. Confirmation by Examiners**

The examiners will confirm in writing whether it is appropriate for the entire dissertation to be made publicly available online. The Dissertation Committee will deliberate on the documents submitted by the candidate and examiners regarding the doctoral dissertation being made publicly available online and determine the process to be followed for each dissertation. Their decision will be presented to the GSA Faculty Council for approval.

審査員の評価に相違があり、相違を解消すべき場合は、博士学位論文委員会がその解決を行う。また博士学位論文委員会によるコメントは審査員に通知される。

#### 13-6. 候補生に対する再審査結果の通知

修正済みの論文が再審査のために提出された日から6週間以内に、候補生に審査結果が通知され、審査員の評価報告書が共有される。

### 14. 口頭試問

最終段階の審査に進むことが認められた候補生には、論文の内容についての口頭試問が実施される。

#### 14-1. 口頭試問の目的

口頭試問の主な目的は以下の通り。

- a) 論文を発表し、審査員から指摘された問題点を明らかにする機会を提供する。
- b) 候補生に、自らの研究について審査員と深く議論し、同じ研究分野の指導者と直接交流する機会を与える。
- c) 審査員は、発表された研究が候補生自身のものであること、また候補生が論文の内容や関連分野に関する知識を有することを確認し、候補生の発表能力を評価し、あらゆる問題・事項を明らかにする。
- d) 審査員が、審査の最終結果について結論を出す。

#### 14-2. 口頭試問への参加

口頭試問には、候補生と審査委員会の委員全員が出席しなければならない。必要と判断された場合には、審査委員会のメンバーが遠隔地から口頭試問に参加することができる。また、特別な事情がある場合には、博士学位論文委員会の許可を得て、当事者全員の遠隔参加を認めることができる。

#### 14-3. 口頭試問の構成

口頭試問は、研究内容を要約した45分間の発表と、審査委員会からの質疑に応答する45分以上の審査で構成される。

#### 14-4. 審査員による評価

審査員は、口頭試問の結果について、以下のいずれかの結果を口頭試問の直後に博士学位論文委員会に提出しなければならない。評価報告書は、口頭試問後1週間以内に候補生に提示される。

- a) 合格：論文は審査基準および博士学位の水準に到達しており、候補生には博士の学位を授与することができる。
- b) 不合格：論文は不合格となる。また、更なる修正・再提出の機会は与えられない。

## 15. 最終審査結果

博士学位論文委員会は、審査員の提言する結論と口頭試問の評価をもとに審議し、以下から最終審査の結果を決定する。博士学位論文委員会が結果を決定できない場合は、研究科長が最終審査の結果を決定する。

- a) 合格：論文は博士学位の水準に到達しており、候補生には博士の学位を授与することができる。
- b) 不合格：論文は、博士後期課程の研究としての質に到達しておらず、不合格となる。

審査員が博士学位論文委員会の委員である場合、当該委員は候補生の案件の審議結果決定プロセスからは除外され、結果の決定に参加することができない。

最終結果は、研究科委員会で承認される。

「不合格」の場合の通知等管理は、博士学位論文委員会および研究科長の責任で行う。

口頭試問の日から2週間以内に、候補生に最終審査結果と審査員の評価報告が共有される。

## 16. 博士学位研究発表会

博士後期課程を修了した学生は、APUで行った研究の成果を博士学位研究発表会で公表しなければならない。この発表会には、学生、教員、友人、家族など誰でも参加することができる。

## 17. 最終審査が不合格の場合

最終試験の結果が「不合格」の場合、論文の再提出は認められない。

## 18. 研究上の不正行為

APU 大学院では、博士後期課程の学生は、研究において最高水準の学術的誠実さを求められる。他者の著作物をコピー、翻訳、類似表現での言い換えは盗作であり、試験での不正行為と同等の重大な犯罪とみなされる。また、データの捏造や改ざん、適切な許可なしに他人のアイデアを使用することも、倫理に反する研究行為の一例である。

剽窃、データの捏造、改ざんが行われた論文は不合格となり、候補生は退学処分を受ける可能性がある。

剽窃、捏造、改ざん、またはその他の研究不正行為が疑われる場合、博士学位論文委員会は、その疑惑や申し立てに根拠があるかどうかを判断する。当該事例は研究科長ならびにGSA 研究科委員会へ報告され、根拠があることが確認された場合は、「立命館アジア太平洋大学研究活動不正行為防止規程」に基づいて取り扱われる。

## 19. 不服申立手続き

論文審査で不合格となった候補生は、審査委員会の委員のうち少なくとも1名の審査結果が「合格」または「軽微な修正」である場合、その結果を不服として申し立てることができる。

### 19-1. 不服申立書の提出

不服申し立てを希望する候補生は、結果の通知を受けた日から14日以内に、研究科長宛ての不服申立書をアカデミックオフィスへ提出しなければならない。申立書には、候補生の異議申し立てを裏付ける明確かつ正確な論拠を示さなければならない。

### 19-2. 不服申立調査の実施判断

研究科長は、不服申し立ての調査を行うかどうかを決定し、その決定を示す詳細な報告書を提出する必要がある。不服申立調査は、不服申立書が審査結果を覆すに足る合理的な証拠である場合に実施される。

## 19-3. 不服審査委員会

### 19-3-1. 不服審査委員会

不服申立審査の実施が決定した場合、不服審査委員会を設置する。不服審査委員会は、以下の通り研究科長が任命する3名の委員で構成される。

- a) 博士学位論文委員会委員長
- b) 研究科長
- c) 候補生の博士論文の分野で専門性を認められた人物で、指導教員または審査員を務めたことがない者が望ましい。この3番目の委員は他の教員および学生に自身の個人情報を開示するかどうか選択ができる。

博士学位論文委員会委員長が候補生の指導教員である場合は、別の論文委員が任命されるものとし、研究科長が候補生の指導教員である場合は、代わりに第三者が本委員会の委員として任命されるものとする。

### 19-3-2. 不服審査委員会の役割

不服審査委員会は、不服申し立ての調査方法を決定し、必要と判断された場合は、不服申し立ての理由を立証するために、候補生へ書面または口頭でさらなる証拠の提示を求めることができる。不服審査委員会は、調査の際に不服申し立てに関連するすべての文書を慎重に調査する。

### 19-3-3. 調査結果

不服審査委員会は、不服申し立ての最終結果を以下の通り決定し、その決定の根拠を説明する評価報告書を提出する。

- a) 申し立てを棄却する。この場合、候補生に最初に通知された結果は変更されない。
- b) 申し立てを受理する。この場合、論文は博士学位論文委員会に戻され、博士学位論文委員会が決定する審査委員会による新たな審査が行われる。

## 19-4. 不服申立の最終決定および候補生への通知

不服審査委員会の決定は、博士学位論文委員会に報告される。

不服審査委員会の決定は、適切なフィードバックとともにGSA研究科長から候補生に通知され、その後の手続きの詳細が説明される。

## 20. 博士学位の授与

博士学位の授与は、立命館アジア太平洋大学学位規程第15条の定めにより、GSA研究科委員会及び学位委員会の議を経て、学長が決定する。

## 21. 学位の取り消し

学位を授与された者が不正行為により学位を取得したことが確認された場合、または大学の名誉を傷つける行為があった場合、GSA研究科委員会および学位委員会の議を経て、学長は学位を取り消すことができる。

## 22. 博士論文の保存と国立国会図書館オンラインデータベースへの登録（修了後の博士論文の扱い）

### 22-1. 博士論文の保存

学位論文の全文は、APUライブラリーで永久保存される。

## 22-2. 博士論文の国立国会図書館オンラインデータベース登録（オンラインでの公開）

博士学位の授与後3ヶ月以内に、博士論文の内容をまとめた要旨及び審査結果の概要をインターネットで公表する。

審査に合格した博士論文は、博士学位の授与から1年以内に、国立国会図書館のオンラインデータベースに登録されなければならない。登録は、本学所定のオンラインリポジトリに論文の全文をアップロードすることで行われる。

## 22-3. 博士論文の国立国会図書館オンラインデータベース登録の免除

次の各号に定める事由により、博士学位の授与日から1年を超えて論文がインターネットの利用による公開ができない場合には、博士学位論文委員会およびGSA 研究科委員会の承認を受けて、博士学位授与に係る論文の全文に代えてその内容を要約したものを公表することができる。なお、次の各号に定める事由に該当しなくなった場合には、博士論文の全文をインターネットで公表するものとする。

- a) 博士論文が著作権および個人情報保護の観点から、博士学位授与日から1年を超えてインターネットの利用により公表することができない場合。
- b) 博士学位の授与日より1年を超えて博士学位候補生が、論文の全文またはその一部の出版を予定しており、インターネットの利用による公表が学術雑誌の複数公表禁止規程に抵触する可能性がある場合、および特許申請中のため論文の公表により博士学位候補生にとって明らかな不利益が将来的に生じる場合。

この申請が承認された場合、学位授与日から最長5年間の全文公開を免除することができる。その後、インターネットの利用による公開によって問題となる他の事由がない限り、論文は自動的に公表される。

- c) 博士学位候補生が、論文の全文または一部を、出版または投稿しており、インターネット公表が多重公表などの学術誌の公表規程に違反する場合や、特許の関係により論文の公表によって博士学位候補生に明らかな不利益が博士学位の授与日より1年を超えて生じる場合。
- d) 博士論文が、立体形状による表現を含む等の事由により、インターネットの利用による公表が不可能である場合。

## 22-4. 博士学位候補生による申告

22-2 および 22-3 の定めに基づき、博士学位の授与を申請する者は、博士学位論文委員会に対し、著作権、特許、秘密情報、個人情報等について、論文の公表に支障がないことを所定の書式で報告しなければならない。指導教員（または学位申請者の指導に携わる他の教員）は、確認作業を指導し、支援する。

## 22-5. 審査員による確認

審査員は、博士論文の全文をインターネットで公表することが適切かどうかを確認し、文書で報告する。博士学位論文委員会は、候補生ならびに審査員から提出された博士論文のインターネットによる公表に関する書類を審議し、個別の論文についての手順を決定する。その決定はGSA 研究科委員会に諮られ、承認をされる。

## 3-1. Outline of the Master's Degree Program

### Degree Program

The degree program offered in the Graduate School of Management is as follows:

Degree type	Major	Degree Awarded on Completion
MBA	Management	Master of Business Administration

### Graduate School of Management - Structure and Outline

#### 1) Policy for Curriculum Structure

In light of the educational objectives stipulated in the Graduate School Regulations, the Graduate School of Management is composed of four Specializations—Japanese Management, Accounting and Finance, Marketing and Management, and Entrepreneurship, Innovation and Operations Management—each with its own curriculum.

Required Subjects are offered to provide students with basic research skills and a fundamental knowledge of management, and students will receive further knowledge of their specializations by taking Elective Subjects offered by each specialization. In addition to these lecture subjects, students receive individual research supervision in the Seminars.

##### a) Japanese Management (JM)

The Japanese Management (JM) specialization focuses on the philosophy and practices of Japanese corporations. Japan is the first Asian country that successfully industrialized supported by its world class corporations. Japanese corporations with their emphases on quality, innovation, customer service, unique style of human resource management and stakeholder model of governance provide an alternative to that of the shareholder model practiced mostly in the English speaking countries including the USA. This specialization focuses on issues as cases of success and failure of Japanese corporations and provides a model of corporate management in the Asia Pacific Region.

##### b) Accounting and Finance (AF)

The Accounting and Finance (AF) specialization discusses theories and concepts of corporate finance, financial engineering and financial institutions, financial accounting and managerial accounting providing students with skills to understand and interpret financial and accounting information. The aim of the specialization is to provide students with tools in the areas of accounting and finance to formulate strategies, design control systems and evaluate the impact of cooperate strategies on various stakeholders.

##### c) Marketing and Management (MM)

The Marketing and Management (MM) specialization focuses on understanding and managing the human dimensions of organizations. For business organizations, some of the most important stakeholders are managers, employees and customers. Their decisions and actions are guided by a whole range of factors, from very 'rational' aspects to subjective perceptions, emotions and (moral) values. Thus, market conditions are in constant flux that necessitate adaptation as well as provide opportunities for creating new market and social values. Consequently, this specialization emphasizes the need of organizations to develop multi-dimensional and differentiated strategies, and sustainable competences and capabilities not only to cope with the changing business environment but also to lead innovatively and responsibly.

##### d) Entrepreneurship, Innovation and Operations Management (EIM)

The Entrepreneurship, Innovation and Operations Management specialization focuses on how businesses and product ideas emerge, develop and realize through entrepreneurship and innovation. This specialization also puts emphasis on the need for effective management of technology, production planning, operations management, supply chain management and creation and operation of new business models. It highlights the importance of innovation and creativity in launching and running a business. This specialization also addresses the issues that might arise when managing a venture through the periods of its life cycle, such as pre-establishment period, start-up period, growth period, and business expansion period.

#### 2) Policy for Curriculum Implementation

In their coursework, students will gain a solid understanding of research methods and a basic knowledge of management, upon which they will pursue subjects primarily in their respective specializations. They may also take subjects from the other specializations.

Based on their individual research topics, students will receive research supervision and work on a final written assignment in the Seminars.

### Conferral of Degrees

The GSM Faculty Council will review each student's credit record and results of the Research Project examinations. The reviewed results will be presented to the Higher Degrees Committee for approval. Following approval by the Higher Degrees Committee, the president will confer the Master's Degree.

### Rescindment of Degrees

If it is found that a graduate has obtained their degree through improper means, or if the recipient has done anything to damage the University's reputation, the President may decide to rescind (cancel) a degree previously granted.

## 3-2. Completion Requirements and Credit Registration Limits

### Basic Requirements for Completion

Students will be qualified for the degree upon successful completion of the following requirements:

1. **Period of Enrollment:** In principle, a student must be enrolled as a regular, full-time student in the Master's Program for 2 years. However, the degree may also be granted to outstanding students (see p. 99) in less than two years. In this case, the minimum period of full-time enrollment is 1.5 years.
2. **Credit Requirements:** Students are required to earn 44 credits or more which must include all credits from Required Subjects and Seminars and 8 credits from Elective Subjects to complete the program.
3. **Research Project (Master's Thesis / Independent Final Report / Internship-based Case Study / Business Plan) Requirements:** All students must complete an extended piece of writing (Research Project), which presents the findings and conclusions of their individual research. GSM students may choose between 4 types of Research Projects: Master's Thesis, Independent Final Report, Internship-based Case Study and Business Plan. All Research Projects must be approved in accordance with the University's examination procedures. For further details on requirements and examination procedures, see Section "3-5. Research Projects".

## GSM Curriculum Alignment Matrix (All Specializations)

The Curriculum Alignment Matrix (CAM) is a list that enables students to overview their own expected learning for each course in the broader context of the GSM's Master's program. It has been developed for the purposes of "Assurance of Learning" - a process which involves assessing how sufficiently the academic missions stated by a university, its undergraduate college and graduate school are achieved and also improving student's learning according to the assessment results.

Listed in the upper columns of the CAM are the four learning goals and several learning objectives aligned with each learning goal. They were both developed in accordance with the Declaration on the Occasion of the Opening of APU and the GSM Mission. The learning goals indicate the ideal conditions that APU expects GSM Master's program students to achieve by the time they complete their degrees. The learning objectives further clarify more specific abilities that the APU business unit (APM / GSM) expects students to acquire.

GSM's Master's program as a whole assures that all students are exposed to and have accomplished all the learning objectives through both required and elective subjects in two years.

IRMA model of learning:

- "I" indicates where students are introduced to the learning objective
- "R" indicates where the learning objective is reinforced, and students have opportunities to practice on that learning objective
- "M" indicates where students are given opportunities to deepen and master their learning and demonstrate their achievement of learning objective
- "A" indicates where evidence is planned to be collected and evaluated for program-level assessment

### 3-3. Reference Information on GSM Subjects

#### Required Subjects

Required Subjects provide a comprehensive set of skills and knowledge so that students are able to move seamlessly into specialized studies. Required Subjects are further divided into 3 categories: Analytical Foundations, Core Business Fundamentals and Capstone.

1. Analytical Foundations provide qualitative and quantitative tools to analyze, understand and apply to actual business situations.

## 3-4. Seminars

### Purpose of Seminars

The Seminars help develop an inquiring mind in students and inform them that issues, research questions or hypotheses that they address need substantiation based on evidence and argument. They train students about the method of collecting, synthesizing and drawing defensible conclusions based on data.

### Operation of Seminars

All students are registered for Seminars in accordance with their length of study, semester of enrollment, supervisor, etc. as designated in the chart below. The Seminars are designed to assist students with their individual research, leading to the production of the Master's Thesis, Independent Final Report, Internship-based Case Study, or Business Plan. Seminars' subject titles are MBA Research Seminar I, II and III and completion of all three seminar subjects is required for program completion.

#### Seminar Registration Schedule

Program Length	1st Semester	2nd Semester	3rd Semester	4th Semester
2-year Standard Completion	—	MBA Research Seminar I	MBA Research Seminar II	MBA Research Seminar III
1.5-year Accelerated Completion	MBA Research Seminar I	MBA Research Seminar II	MBA Research Seminar III	<b>Program Completion</b>

**\*Note:** Please carefully read the detailed seminar registration flow on page 76.

### Choosing a Seminar Supervisor

Students should choose a supervisor from within their Specialization and report selection of supervisors at the end of their first semester by submission of a Plan for Research Supervision. After the selection of a supervisor is approved, students will be registered for their chosen supervisor's seminar subject during the designated Course Registration periods. Students enrolled in the Accelerated Completion Program should choose their supervisors soon after the classes of the first semester begin.

To help first semester students select their seminar supervisor, a Seminar Orientation is held during Quarter 1 of each semester to provide details about the structure of the seminars, characteristics of Research Projects, and tips on how to search / select a supervisor. Details about the orientation session are separately announced at the beginning of every semester.

**Note:** Students planning to apply for accelerated program completion should consult the Academic Office regarding selection of seminar supervisors and MBA Research Seminar registration.

### Plan for Research Supervision

The Graduate School of Management requires that the supervisor prepare a yearly plan for research supervision, present it to the student in advance, and conduct research supervision in accordance with this yearly plan. The Plan is created based on a research plan written by the student and presented to their supervisor. It reflects the student's individual research and is provided to students as a tool to help lead them to the successful completion of high-quality research.

The Plan establishes a guideline for students to follow to progress with their research in the subsequent year. It also serves as a reference point the supervisor can use to monitor the progress of the student's research. The student prepares a research plan at the beginning of the 1st and 3rd semester and presents it to their supervisor, who will, on consultation with the student write and present the student with the Plan for Research Supervision for that year. Upon confirmation, both student and supervisor sign the Plan, and the student submits a copy to the Academic Office for record-keeping.

### Plan for Research Supervision Submission Deadline

	Spring Semester	Fall Semester
1st-semester students	July 5	January 10
3rd-semester students	April 30	October 31
Submission Location	Moodle	

**Note:** If the deadline falls on a weekend or a holiday, or a day when the office is closed, the deadline will move to the immediately preceding working day.

**Note 1:** Students who have changed supervisors: the new supervisor will prepare and present a yearly Plan for Research Supervision. Please provide your new supervisor with your research plan so they can do so. The period of research supervision in the Plan will depend on the time left until graduation.

**Note 2:** A Plan for Research Supervision will be prepared for students who extend their graduate program, and reinstated / readmitted students. Please present your supervisor with an updated research plan so a research supervision plan can be prepared. The period of research supervision indicated in the Plan for Research Supervision will depend on the extension period for students who are extending their programs and on the period until graduation for reinstated / readmitted students.

## Seminars

### Individual Supervision

After students have found a supervisor and their selection of supervisor has been approved, students will be registered for seminars as designated in the table above. In these seminars, students will meet with their supervisors on an individual or small group basis once a week and all meetings are scheduled individually between supervisors and students.

### Work in Progress Seminars

In these seminars, students will present their research proposal and the current progress of their Research Project to GSM faculty members within the field of their research topic. All students registered for MBA Research Seminar II should give a presentation. Work in Progress Seminars are open to all students and faculty members to attend and will be organized on Wednesday of the exam period in the 2nd quarter. The presentation given at the Work in Progress Seminars should include the following elements:

- Type of the Research Project
- Research topic
- Hypothesis and research questions
- Importance of the research
- Review of relevant literature
- Methods of data collection
- Research schedule until the submission of the Research Project

## 3-5. Research Projects

### Types of Research Projects

There are four types of Research Projects: Master's Thesis, Independent Final Report, Internship-based Case Study and Business Plan. The Research Projects are "capstone" experiences and thus should draw on and integrate the knowledge students gained in all the courses they have completed.

### Submission of Research Projects Summary

All students in their final semester must submit a notice approved by their supervisor for the type of Research Project they are writing by the designated deadline. The notice should be submitted together with the Research Project Summary. The appropriate form may be found on the Graduate School website. Please refer to the Graduate School website and to the Procedures for the Examination of Research Projects in the Graduate School of Management for details about submission deadlines.

### Types of Research Projects

All students need to conduct research under the direction of a supervisor and prepare an extended piece of writing (Research Project) that follows formal standards of research. All Research Projects must be based on real data, be accurate and clear, and include completely all sources of quotations, citations and the use of other materials. There are four types of Research Projects: Master Thesis, Independent Final Report, Internship-based Case Study and Business Plan. These types of Research Projects epitomize distinct research purposes, use different methods and must satisfy formal requirements. The different types Research Projects offer the opportunity for students to pursue a variety of research topics and methods of inquiry. They allow students to conduct academic research as well as to respond to recent developments in corporate or market behavior and the international economy without narrow formal restrictions. All Research Projects must abide to principles and standards of research set by the University. The four types of Research Projects differ in their degree of abstraction, generalization and practical applicability.

#### **Master's Thesis**

The Master's Thesis is an original scholarly research project that is narrowly focused on an abstract topic or theoretical argument linked to a real-world problem in business and addressing a gap in understanding of a business situation.

Students writing a Master's thesis will respond to a debate in the management or economic literature and will bring new evidence or arguments to bear upon the topic. The Master's Thesis topic is a scholarly issue anchored in or linked to an academic strand of literature and originating from the discussion in the seminar with the supervisor. The student must show familiarity with previous work in the field. The Master's Thesis typically conceptualizes the research issue, offers a higher degree of abstraction by presenting a model or theoretical argument that is or can be generalized from the particular research object or location. It does not need to address a practical business problem but is applied to a for-profit or non-profit business context or governmental regulation of a business or industry. The Master's Thesis follows the traditional structure of academic inquiry, comprising various chapters in which a research gap in literature is identified, clear and comparatively narrow research objectives are set, a review of previous literature is provided, a scholarly methodology is applied, empirical results are presented and critically discussed, and consequences for business and governments are derived.

A Master's Thesis is especially but not exclusively recommended for students who are interested in pursuing further research, for instance in a doctoral program or as a researcher in a public agency. As a rule of thumb, a Master's Thesis should be publishable or form the empirical basis for an article in a scientific journal.

The length of the Master's Thesis should be from 8,000 to 15,000 words.

#### **Independent Final Report**

The Independent Final Report is a scholarly research project in which a novel or broad subject is explored in a rather descriptive approach. An Independent Final Report can be primarily a bibliographic essay, an exhaustive survey of literature on a broad topic and a descriptive assessment of primary or secondary data.

It offers an opportunity to pursue a more practical research objective that lacks a theoretical foundation or generalizable conceptualization

and instead is more location-specific, for instance industry- or country-specific, than a Master's Thesis. The topic must be timely and of high current relevance for an industry or policy maker. Compared to the Master's Thesis, the Independent Final Report is more exploratory or evaluative than causal and confirmatory. The Independent Final Report allows for a more flexible structure and inquiry. It might connect ideas and fields in a novel way, and consist of descriptive primary or secondary data. One strength of the Independent Final Report is that it allows for a broader or more detailed assessment of previous research including grey and non-scholarly literature or secondary data. It may predominantly consist of a critical assessment of literature or a meta study that identifies and appraises previous research, and quantitative and qualitative evidence about a novel research question. An Independent Final Report should eventually come up with practical recommendations but also show a pathway to the identification of a model or theoretical applicability of the topic.

The length of the Independent Final Report should be from 8,000 to 15,000 words.

### **Internship-based Case Study**

Students are able to choose an internship as the basis for their final Research Project. The Internship-based Case Study follows an empirical inquiry that investigates a phenomenon within its real-life context. That is, the Internship-based Case Study project must be academic and related to concepts students have worked with in the courses but the discussion of the project results will be drawn primarily on the company-specific insights and practical learning experiences from the internship. The difference to the above Master's Thesis and Independent Final Report options is the degree of specificity of the research. The Internship-based Case Study is basically an application of concepts or theory in real life at a particular company. It follows an in-depth approach and can incorporate different issues in a company in order to demonstrate the complexity and interrelatedness of a subject. The Internship-based Case Study must be written as a case study of the company in which the internship has been conducted. It does not need to follow the formal structure of a Master's Thesis but needs to relate each part into an organized account. The account can be primarily illustrative in its content and does not need to be generalizable for other contexts. It may include statistics about the industry, the market and competitors of the company, and it may present quantitative primary data such as surveys. Students are required to critically assess the issues raised in the company and provide practical recommendations.

The length of the Internship-based Case Study should be from 8,000 to 15,000 words.

### **Business Plan**

A Business Plan is an original proposal for a business startup from the point of launch to an initial public offering, or for an existing business regarding its expansion, new product launches, reorganization of internal operations, etc. over the next five years, and including the objectives and the core strategy of the business and a roadmap for implementation. It must define the mission of the business, introduce the management team, and cover opportunities arising from the industry environment, product/service development, market analysis, marketing strategy, financial projections, and human resource and operational aspects of the proposed business. As regards these elements, the plan is expected to outline key decision points and performance indicators, and any potential pitfalls and responses thereto. Consideration of environmental, social, and governance issues surrounding the business is also essential. It must be cohesive and detailed enough, so that it could readily be used as a basis for implementation and attracting support from internal and external parties, such as banks, governments, and venture capitalists.

The length of the Business Plan should be from 8,000 to 15,000 words.

## **Requirements for the Internship-based Case Study**

### **Internship Guidelines**

Students who have chosen the Internship-based Case Study option are required to complete an internship. The internship program is designed to ensure that students assess the applicability of the concepts, theories they have learnt at the university, gather practical experiences and develop practical skills in dealing with actual situations. Depending on their interests, students may focus on any of the functional areas of management. Students who plan to avail the opportunities of internship, must develop skills in action research methods and case writing.

### **Arranging the internship**

Students shall locate the internship destination on their own and submit a plan of their activities to their supervisor. The supervisor shall review the student's plan to determine whether the location is appropriate as an internship destination. In general, APU will not provide support in arranging internships (internship destination, visa, permission from the company, etc.).

### **Supervision**

The APU supervisor will be the principal supervisor of the student. The student will submit a plan of the type of activities he / she plans to complete while in internship. Supervisors will assess the feasibility of the plan and advise the students accordingly. Students should also have a secondary supervisor. Students should choose one or more people from the internship host company to act as a supervisor during their internship and should ask that supervisor to submit a performance evaluation to their APU supervisor regarding the students' activities during the internship. The performance evaluation may be taken into account when grading seminars.

#### Length of the internship

Students should spend a total of 100 hours in the company or institution they intern at. Students should inform the University of the internship destination, duration, etc. before they start their internship. Upon returning from their internship, students should submit to the University any documents related to the internship.

#### Required Documents

Students should inform the University of the internship destination, duration, etc. and should submit their plan for research activities while on internship approved by both the APU and company supervisors **before they start their internship**. After completing the internship, students should submit the company supervisor's evaluation of their performance as interns and a proof for the number of hours they spent as interns. Relevant forms are available on the Graduate School website.

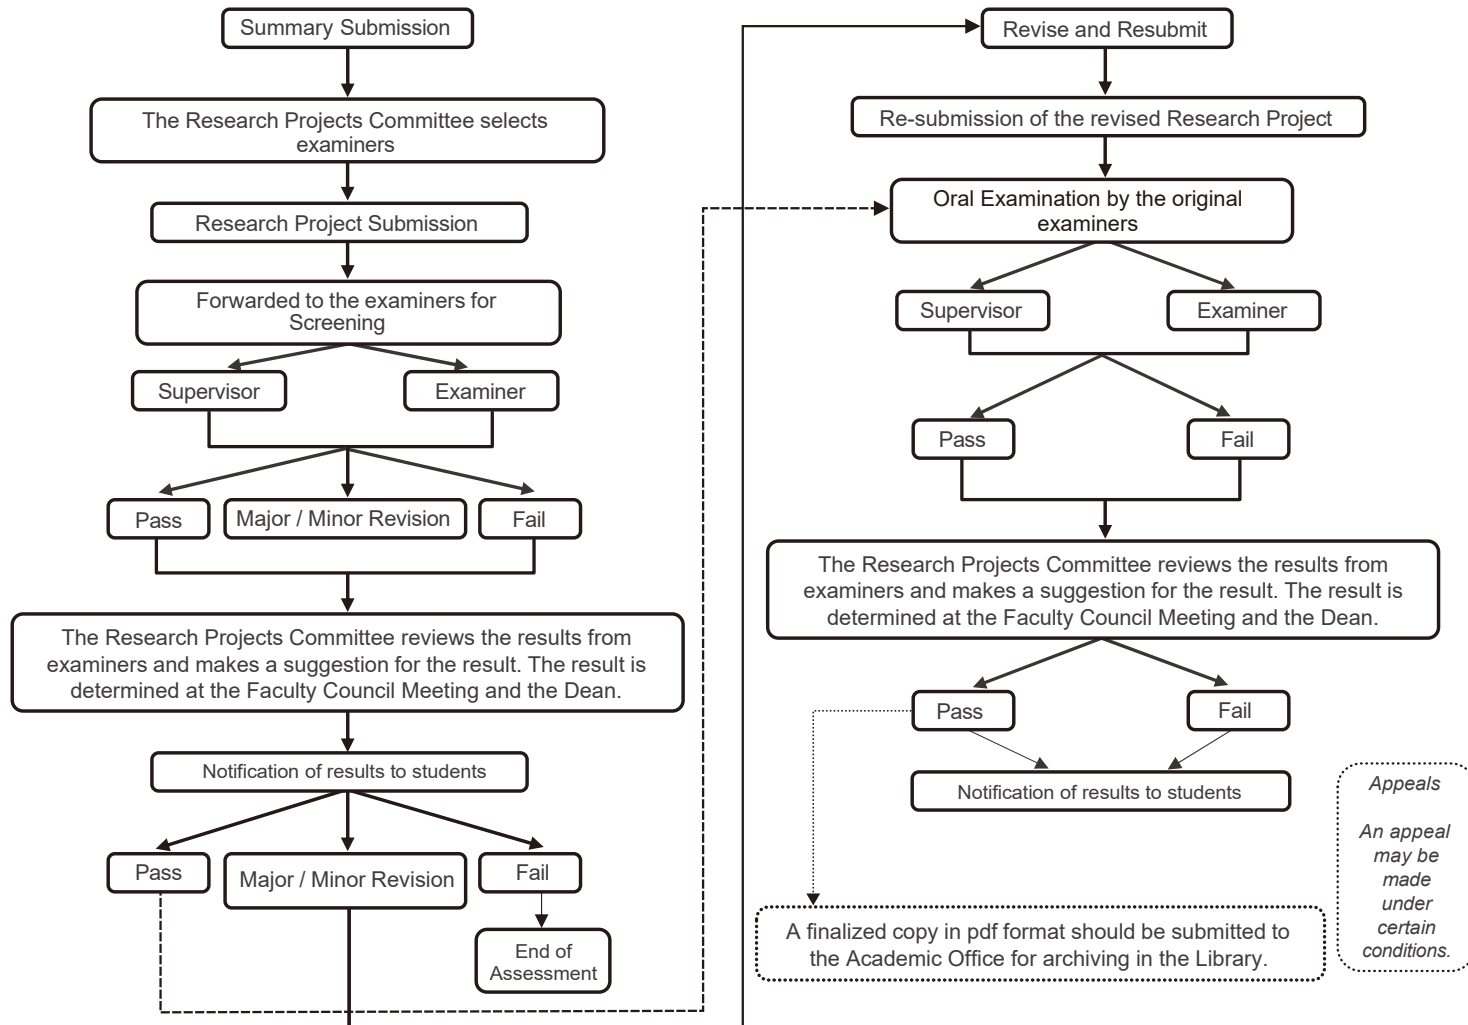

### **Requirements for Research Projects**

All students should carefully read the procedures related to the examination of the Research Projects in the Graduate School of Management outlining the requirements and examination procedures. (p. 81-95). This information is summarized in the flow chart on the following page.

### **Evaluation Criteria for Research Projects**

All Research Projects are evaluated based on a designated set of evaluation criteria. The evaluation criteria are available on the Graduate School website and all students should refer to these before submitting their Research Projects for examination.

## 4-1. Length of Study: Standard Enrollment and Accelerated Completion

### Length of Study (standard or accelerated completion, changes to program length, etc.)

Upon enrollment at APU students are required to submit a Program Registration Form indicating the intended length of study (2 years, 1.5 years or 1 year) at APU and their tuition will be billed according to the registered program length (see the Student Life Guide Book for tuition schedule). Students who wish to complete the Master's Program in less than 2 years will be required to submit an application including a research plan shortly after enrollment, in addition to the Program Registration Form. All students accepted into the accelerated completion programs will be required to apply for further assessment at set points during the program, depending on length and Graduate School.

Application for study in the Accelerated Completion Programs will be allowed only within 2 weeks of the commencement of the first semester of enrollment; reducing the program completion length will no longer be possible after this period. An additional application will be required if a student wishes to extend the program completion length.

Students should carefully consider the tuition billing schedule and consult with their supervisor regarding seminar subjects prior to applying for any change in program length.

### Length of Study

All graduate students must declare their intended length of study at APU upon enrollment to the University by submitting a Program Registration Form indicating their intent. Their tuition will be billed according to the predetermined payment schedule for each completion program length (see the Student Life Guide Book for tuition schedule).

Program	Standard Completion	Accelerated Completion	
GSAM	2 years	1.5 years	1 year
GSM	2 years	1.5 years	--
GSAD	3 years	2 years	

Application requirements and deadlines for enrollment into the Accelerated Completion Programs differ depending on the graduate school and program. Please carefully check the application requirements for your program in Section "4-2 Accelerated Completion Programs".

### Accelerated Completion

Students who wish to complete their program in less than the standard completion time will be required to submit an application form that includes a research plan in addition to the Program Registration Form according to the deadlines below. Reduction to the program length will no longer be possible once the below deadlines have passed.

Accelerated completion tuition schedule will apply. See the Student Life Guide Book for details.

Program	Program Length	Application Period	Application Deadlines		Tuition
			Spring Semester	Fall Semester	
GSAM*	2 years → 1 or 1.5 years	at the beginning of the 1st semester	By April 15	By October 5	Tuition payment schedule differs per program
GSM	2 years → 1.5 years				
GSAD**	3 years → 2 years				

\*IMAT students cannot apply for accelerated completion.

\*\*Limits to credits that may be registered for are based on the registered length of study (see the chart "Credit Limits" in the relevant section for your program).

### Extension of Period of Enrollment (within the standard program length)

Students enrolled in the Accelerated Completion Programs who will not be able to complete all requirements within the planned program length can extend their enrollment by choosing not to submit an assessment application by the following deadlines.

Program	Program Length	Application Period	Application Deadlines		Tuition
			Spring Semester	Fall Semester	
GSAM	1 Year → 1.5 or 2 Years	By the end of the 1st Semester	By March 5	By September 5	Tuition payment schedule will be adjusted to the new program length
GSAM	1.5 Years → 2 Years	By the end of the 2nd Semester			
GSM	1.5 Years → 2 Years	By the end of the 2nd Semester			
GSAD	2 Years → 2.5 or 3 Years	By the end of the 4th Semester			

## **Extension of Period of Enrollment (outside the standard program length)**

If, due to some unavoidable circumstance, the student cannot complete all program requirements within the standard program length, it may be possible to extend enrollment up to twice the length of the program. In this case a Master's student may extend up to 2 years (4 semesters) for a total enrollment period of 4 years (8 semesters). Doctoral students may extend up to 3 years (6 semesters) for a total enrollment period of 6 years (12 semesters).

**Note 1:** Those who must extend beyond the standard program length should carefully consider any extra procedures required for student visas, semester tuition, etc., review carefully the Tuition Section in the Student Life Guide Book and consult with their seminar supervisors, the Academic Office and the Student Office.

**Note 2:** GSAD students unable to complete their program within 3 years should carefully read the information on p. 35-36 regarding options available to them.

APU does not have a system of officially recognized absences. In the event that you are unable to attend classes due to unavoidable circumstances such as illness or the death of a family member, please inform your instructors of your absence from classes. Each instructor will determine how to handle your absence in these cases. However, these procedures will differ depending on the length of the period of absence. Please read the following information for details and application instructions. Please also read the information on the Academic Office website for updates and application documents.

[https://en.apu.ac.jp/academic/class\\_info/class\\_absences/](https://en.apu.ac.jp/academic/class_info/class_absences/)

### Short-term Absences

A “Report of Absence from Class due to Illness or Bereavement” is issued for illness or injury of the student or when bereavement is necessary for blood relatives or relatives by marriage among second-degree relatives.

Please note that this “Report of Absence from Class due to Illness or Bereavement” does not automatically guarantee approval of the absence.

All decisions regarding absence from class will ultimately be determined by individual instructors.

Absences for reasons other than those listed below are not eligible for this procedure.

If you meet the application requirements for long-term absence from class, you fall under the category of “long-term absence”.

#### Eligible reasons for absences, application criteria, official certificates required

### Long-term Absences

In some cases a student is absent for more than half the term of a course due to illness or personal injury. If those students meet the following conditions for a Long-Term Absence and submit an application by the deadline, course registration for the period of absence will be cancelled. Please note that if cancellation is approved, all courses in the affected semester or quarter will be cancelled. You may not cancel only specific subjects.

#### IMPORTANT REGISTRATION NOTES:

Students bear full responsibility for any errors made during course registration. As no special consideration will be given for such errors, please use extra caution during registration to ensure no mistakes are made.

1. Do not log into multiple screens with the same account at the same time. This can lead to system errors, preventing registration. The University will bear no responsibility for any problems a student may experience in this case.
2. If you access Campusmate via any browser other than Microsoft Edge it is possible an error may occur. The University takes no responsibility for registration problems caused by such errors.
3. When you register or cancel subjects online, please be sure to click the Apply button to register your changes.
4. Upon completion, please make sure to save or print the Course Registration Confirmation Sheet which includes your “Registration No”. Without this number on the Course Registration Confirmation Sheet, we cannot respond to inquiries about system errors. Be sure to record the date the course Registration Confirmation Sheet was printed / saved.

- If you log out or close the registration screen prior to completing course registration, you will lose all changes. You must first complete your course registration, log out, and then log in again to confirm your course registration is correct. Mistakes in registration are your own responsibility.
- Please do not share your password with anyone else. The University recommends regularly changing your password.
- You may conduct course registration off campus. However, as accessing the system from outside the campus network may be slow or unreliable, the University recommends the use of on-campus terminals for course registration. You are responsible for any adverse result that comes from using these systems.

- Check the class schedule online to ensure the subjects you wish to take are available and do not overlap. Registration for subjects held during the same time period is not possible.
- Registration over the maximum credit limit is not allowed; students are encouraged to take required subjects early, to allow more time to focus on the Master's Thesis / Research Report / Research Project writing in the final semesters.
- Registration for semester (seminar) and 1st Quarter subjects can only be conducted during the Course Registration Period. Students CANNOT add semester (seminar) and 1st Quarter subjects after the Course Registration Periods have closed.
- Subjects for which credits have been received cannot be re-registered; however failed subjects may be retaken.
- Master's students in their final semester** should not register for subjects held during the Session Period, as graduation assessment takes place during this time.

## Final Reports

Some subjects require students to submit a final report at the end of the term instead of sitting an examination. The final reports are usually submitted during strictly fixed periods.

### Points to Remember When Submitting Final Reports

The final report submission periods and locations will be announced on the bulletin board, as well as on the Academic Office website. Please make a habit of checking the bulletin board on a regular basis. Since there is a fixed submission period, there are no make-up options for reports. Be sure you submit your report by the stated deadline. If you cannot submit the report in person, a proxy may submit your report on your behalf.

## Other Written Assignments

“Other Written Assignments” refers to any items for assessment created by students to be submitted or presented as part of the student’s performance evaluation within APU. This may include final reports, answer sheets, presentation materials, resumes, Master’s Theses, Research Report, Research Projects, and all other media resources.

## 5-6. Grading and Assessment

Grading System model for the Graduate School of Asia Pacific Studies and Graduate School of Management:

Evaluation	Grade (%)	Pass / Fail

C	60 ~ 69%	
F	59% or lower	Fail

### Calculating Grade Point Average (GPA)

Semester and cumulative GPA will be available via Campusmate when semester grades are released. Only cumulative GPA will be noted on the Transcript of Academic Record, etc.

**Semester GPA:** It is calculated using only the grades of the present semester. It is not included on official transcripts and is reset every semester.

$$\frac{[(\text{Number of A+ credits} \times 4) + (\text{Number of A credits} \times 3) + (\text{Number of B credits} \times 2) + (\text{Number of C credits} \times 1) + (\text{Number of F credits} \times 0)]}{\text{Registered credits for a given semester (excluding P / T)}}$$

**Cumulative GPA:** It is calculated during the entire period of studies (from semester one (1) through the last semester) and is printed out on all official transcripts.

$$\frac{[(\text{Number of A+ credits} \times 4) + (\text{Number of A credits} \times 3) + (\text{Number of B credits} \times 2) + (\text{Number of C credits} \times 1)]}{\text{Total completed credits (excluding P / T)}}$$

\* **Note:** Credits from letter graded Optional Subjects will NOT be calculated in the semester and cumulative GPAs.

### Students Receiving a Failing Grade

An “F” (Fail) grade shall be printed on the student grade report and calculated into the GPA for the semester in question, but will not appear in official transcripts or student grade reports issued in semesters thereafter. “F” grades will not be calculated into the cumulative GPA. Students have the opportunity to retake a failed subject; however, subjects that have received a passing grade cannot be re-registered.

### Release of Grades

Student grades are released at the end of each semester. The exact dates are indicated in the Academic Calendar and on the Graduate School website. After grades are released, students may confirm their grades via Campusmate. Grades cannot be released before these dates and students are not permitted to contact faculty members directly regarding grades.

### Grade Reports

Grade reports will be distributed to students who applied for them beforehand within a three-day period after grades have been announced. Please note that official academic transcripts (which may be purchased from the Automatic Certificate Dispenser) and student grade reports may vary in content. See below for details.

All grades except “F”	Will be printed. *Grades cannot be cancelled once received.	Will be printed. *Grades cannot be cancelled once received.
