1. Introduction

Research Ethics and Research Compliance Training

APU has determined its internal rules and regulations on grant/subsidy usage, such as the Ritsumeikan Asia Pacific University Research Code of Ethics*¹ and the Ritsumeikan Asia Pacific University Regulations for the Management of Public Research Funds*² largely based on The Ministry of Education, Culture, Sports, Science and Technology (MEXT)'s guidelines.

*1 Ritsumeikan Asia Pacific University Research Code of Ethics

*2 Ritsumeikan Asia Pacific University Regulations for the Management of Public Research Funds

<https://en.apu.ac.jp/home/research/content5/>

1. Introduction

The Academic Office offers training programs for Research Ethics and Compliance so that researchers can gain a better understanding of the standard of research conduct required of them and be aware of the rules pertaining to research grant usage. **All doctoral and master's students are required to complete the Research Ethics and Compliance training programs.**

Please be advised that to be eligible to receive a grant or subsidy, either internal or external, submission of proof showing that the said training programs have been completed is required.

研究倫理eラーニングコース(e-Learning Course on Research Ethics)[eL CoRE]

Japanese English

The e-Learning Course on Research Ethics is based on the book *"For the Sound Development of Science-The Attitude of a Conscientious Scientist."* It provides researchers with an opportunity to learn about research ethics at any time or anywhere they may be.

This e-Learning Course provides scientists engaged in all fields of research, including the humanities, social sciences and natural sciences, guidance on essential points of conduct in carrying out their research and in communicating their results within the science community and to the larger society. This course compiles essential points on how people in the humanities and social sciences to natural sciences should conduct their research within the science community and to the larger society. Researchers should know and bear in mind when conducting research, including a code of ethics, presenting research results, and appropriate use of research funds.

■ Feature 2
Group registration and management available.

■ Feature 3
Many examples are provided to enhance the learner's understanding.

free of charge. There are no requirements.

Firstly, register to have your User ID and Password issued.

Research Ethics and Compliance Training

Understanding and respecting research ethics is a prerequisite for engaging in legitimate, productive, and socially beneficial research. Graduate students in APU are expected to **fully comprehend and comply with the University standards for research ethics**.

Doctoral students **MUST** complete the online Research Ethics Training, “eLCoRE” provided by the Japan Society for the Promotion of Science (JSPS), as well as the Research Compliance Training and submit the corresponding documents to the Office. Master’s students are **strongly encouraged** to complete the Research Ethics Training “eL CoRE” provided by the Japan Society for the Promotion of Science (JSPS), as well as the Research Compliance Training and submit the corresponding documents to the Office.

Document Submission Deadline: **Thursday October 1st, 2026—Friday October 30th, 2026**

Submissions:

1. Complete the online Research Ethics Training, “[eLCoRE](#)” and then download the Certificate.
2. Watch the [Compliance Training Video](#).
3. Log in to [Moodle](#) and complete these three steps
 - 3.1 Take the Comprehension Test online on the Compliance Training Video
 - 3.2 Attach your Certificate of Ethics Training “eLCoRE”
 - 3.3 Check each Written Pledge Item online before submitting

Please visit the [Graduate School website](#) for details.

Note:

Here at APU, there is a **Research Compliance/Ethics Review Committee**. There have been an increasing number of cases in which

publishers require you to submit a “Letter of Acceptance from the Ethics Review Committee of the University” when publishing your paper or research achievements in an academic journal or book. Please be sure to consult with your supervisor about the need to apply to the committee **before starting your research (pre-data collection)**. **Application review can take up to 1-2 months.**

Reviews are not possible once the research has been started or at the time of publication.

Research Ethics and Compliance Training

APU offers training programs on Research Ethics and Compliance to support the responsible and ethical conduct of research and to ensure adherence to relevant rules and regulations. All Doctoral students, and Master's students are required to take the Research Ethics and Compliance Training programs before beginning research.

Please read [this document](#)  to learn how to take the training and submit your completion certificate.

Research Involving Human Subjects (Research Compliance/Ethics Review Committee)

APU has a Research Compliance/Ethics Review Committee. There have been an increasing number of cases in which publishers require you to submit a "Letter of Acceptance from the Ethics Review Committee of the University" when publishing your paper or research achievements in an academic journal or book. You are encouraged to use [this checklist](#)  before submitting your application to the Committee. Please be sure to consult with your supervisor or the Outreach and Research Office regarding the need to apply to the Committee before starting your research. Please note that reviews cannot be conducted once the research has begun or at the time of publication.
