Note:

- 1 Add rows for each college/department (course), graduate school/major, or other/graduate department that recruits students.
However, note that when adding departments, etc., the data must be placed under the relevant values to ensure the total is not skewed.
- 2 For colleges that adopt day/night course systems, enter the data separately for the day and the night course systems.
- 3 If a reorganization of colleges and departments has led to combinations of old or new departments, list both the old and new organizations, and leave a note to this effect in the "Remarks" column.
- 4 If colleges and departments or graduate schools and majors, etc., have not reached their final year (year of completion), leave a note to this effect in the "Remarks" column.
- 5 If the recruitment capacity is limited to several students, please enter [0], and add the actual number of students for "Enrollees."
- 6 Use the ratio of enrollees versus intake capacity as the "Intake Capacity Fulfillment Ratio," and the ratio of total students versus total student capacity as the "Total Student Capacity Fulfillment Ratio."
- 7 The "Average Ratio Versus Intake Capacity" represents the average ratio of enrollees versus intake capacity over the last five years, and is calculated automatically.
8. Confirmation for fall admission in the latest academic year to be conducted separately. (For the period prior to the year preceding the latest academic year, also include the fall admission.) In addition, if including fall admission, please prepare the data on the basis of information available at the start of the fall semester.
9. If a certain capacity is set for transfer admission, do not add the capacity for transfer admission to the admission capacity in the table above (the admission capacity other than the [Transfer Capacity] table).
