

Beppu 20th Century Photo Exhibition, Bungo/Beppu Shibori Exhibition

Period: Monday to Friday, 9:00 to 20:00

Venue: F building atrium, Cafeteria Booth

This exhibition will display images of Beppu (focusing on nature, culture, etc.) during the 20th century, offering glimpses of the city that are hard to come by today. Photographs of Beppu will be displayed for five days, allowing visitors to deepen their understanding of the city prior to its modern development, as well as its history as a place of commerce and tourism.

In cooperation with the Beppu Onsen Shibori Kenkyukai (a research association for Beppu tie-dye fabrics produced using hot spring water) and the NPO Beppu Hatto Onsendo Meijinkai (an association of hot spring enthusiasts who have visited 88 Beppu hot springs), the exhibition will also feature Bungo/Beppu shibori (tie-dye) fabrics washed in indigo blue dye that were displayed at Beppu Station in the spring of 2017. For five days, the APU campus will be adorned in the colors of Beppu that boast a history of over 400 years.
