

2025 Fall Health Checkups

When APU students have a health checkup?

You are required to get a health checkup every year **in all odd-numbered semesters**. Students who are reinstated or readmitted and students who have completed their exchange program must take it in the semester you return to APU, even if it is an even-numbered semester. (Returnee Health Checkup)

◆ Students required to have a health checkup **have received a message via the Campus Terminal or Email.**

- **All students in an odd-numbered semester** in 2025 Fall Semester
 - ※All students who were in an even-numbered semester in the 2025 Spring Semester when being reinstated or readmitted, or returning from a study abroad program must ALSO get a health checkup in the 2025 Fall Semester.
- Students who **are reinstated or readmitted in 2025 Fall Semester**, and students who **finished a Student Exchange Program in 2025 Spring semester**.

IMPORTANT

- **Only for students who are registered at APU in the 2025 Fall Semester**, NOT for students graduating in September 2025, or taking a leave of absence in the 2025 Fall Semester.

If NOT complete the health checkup during the designated period (includes all necessary follow-up examinations.);

- APU will not issue the health checkup certification.
- Scholarships for the **2026 Spring semester** will be **SUSPENDED**. Scholarships that will be suspended for not completing the health checkup include:
 - APU Tuition Reduction Scholarship (100%, 80%, 65%, 50%, or 30% reduction)
 - Domestic Students Academic Excellence Scholarship

The purpose of the health checkup is to help you better understand and maintain your health and to detect any health problems as early as possible. Getting regular checkups will help you stay healthy while at APU. Having a good understanding of the state of your health and learning how to manage your health by cultivating a healthier lifestyle will allow you to lead a fuller university life. Health checkups play an important role in preventing and controlling infection at APU.
