

Screening Information for External Scholarship Recommendations from APU (AY2025)

【Basic Information】

\* There are external scholarships for which students can apply to APU for a formal recommendation to the foundation awarding the scholarship. Students will first need to apply to APU and undergo an internal screening. APU will recommend students who pass the internal screening to the scholarship foundation and those students will then apply directly to the foundation itself. Please be aware there is no guarantee you will be selected by the foundation even if you successfully secure a recommendation from APU.

\* Each scholarship has different objectives and requirements. Read both the information below and the application guidelines for each scholarship carefully before applying for the scholarship(s) that match your objectives and for which you meet the requirements. **Be aware that your application will not be screened if you apply for scholarships you are not eligible for.**

\* **Read the 【Requirements to Apply for External Scholarship Recommendations from APU】 below** and check if you meet all the requirements prior to applying.

\* If you are selected as a scholarship recipient by a scholarship foundation, you are required to communicate with them and become actively involved in their activities. In almost all cases, the language used is Japanese.
