7. Project Funding

(1) University Policy on Funding for Student Activities

The University considers it important for student organizations to have a budget appropriate to the scale of their projects/activities and use University funding appropriately and in the most cost-effective way possible.

(2) University Subsidies

① Maximum Amount Project B: Maximum of 500,000 yen per group

② Subsidy Screening

- The maximum subsidy amount for each project will be announced together with the final screening results.
- Project members will meet with their project advisor in the Student Office to draft a budget and decide how to allocate subsidy funds.

③ Subsidy Period: **Wednesday November 17, 2021 ~ Wednesday, August 31, 2022**

④ Subsidy Reimbursement

- In principle, groups will pay for all project-related costs out of pocket. The University will reimburse project expenses at two designated periods during the year.
- The University may decide to directly pay for something instead of having the group pay out of pocket and reimburse them later. Cases like this could include situations where it is difficult for a group to come up with the funds for an expensive project-related purchase as well as occasions where payment is needed to be made swiftly to someone not affiliated with the University (honorarium given to a guest lecturer, etc.). Decisions will be made in light of the group's progress.
- The University will deposit the reimbursement in the designated bank account roughly 1 month after the necessary documents (Final Report, Financial Report, and receipts) have been submitted.
(Refer to the Activity Schedule in section "4. Yearly Schedule." Groups that have finished their project and have all their financial documents in order may apply to be reimbursed ahead of the application deadline.)
- **Groups must submit the documents necessary to be reimbursed (receipts, Financial Report, etc.) by the designated submission date in March 2022. Please note that the University will not be able to reimburse AY2021 costs once the 2022 academic year begins.**
- The University will not reimburse project costs if the required documents are not submitted by the deadline.

⑤ Final Income/Expenditures and Subsidy Amount

- If the project income exceeds expenditures: The subsidy amount will be reduced so that project income and expenditures equal zero.
- If the project expenditures exceeds the subsidy amount: The University will not bear any costs except for the maximum subsidy amount approved at the beginning of the project.

⑥ Income and Expenditure Records

Groups must keep a record of all income and expenditures for their project, including the ones that will not be subsidized, and report them to the University.

⑦ Income Generating Activities and Donations

- It is possible to hold an activity or event that generates income (collecting admission fees at an event, etc.), however, groups must first apply and receive approval from the University.
- Groups holding fundraising events or asking for donations from companies and organizations will need to provide a detailed plan and reason in the project proposal when applying.
